Programów Badawczych UE

Project: 101057279 — HNN3.0

27 March 2025

[www.healthncp.net](http://www.healthncp.net)

The screenshot shows the official website for the Horizon Europe 2025 Health Brokerage Event. The header features the European Union flag, the event title 'INFO DAYS 2025 BROKERAGE EVENT CLUSTER 1 | HEALTH', and the dates '5 May 2025 - 6 May 2025'. A navigation bar includes links for Home, Timetable & How it works?, Oral presentations/ Pitching session, FAQ, and Contact. The main content area has a large heading 'Don't miss the opportunity to get involved in the next Horizon Europe 2025 Health proposals!' followed by the dates and time. It explains that the 2025 calls are the third round of calls for the CL1 Work Programme. The text states that the European action HNN3.0, along with the European Commission and Enterprise Europe Network, is organizing the event for the 2025 Cluster 1 Health calls. It mentions that the event is held before the Cluster 1 Health INFODAY to allow applicants more time to find partners. A note indicates that the event is free but registration and profile activation are mandatory. An important section titled 'IMPORTANT TO READ!!!' emphasizes that registration must include at least one Project Cooperation under the Marketplace section. It also states that participants will receive an automatic e-mail from B2M after registration and another from the organizing team before validation. A 'Register now' button is prominently displayed, with a note that the registration is open until 30 April 2025. The organizers listed are HNN3.0, the European Union, and the Enterprise Europe Network. A resources section at the bottom provides links to various forms and a search guide.

Home Timetable & How it works? Oral presentations/ Pitching session FAQ Contact

**Don't miss the opportunity to get involved in the next Horizon Europe 2025 Health proposals!**

5th & 6th May 2025 | 10:00 - 19:00 CET

The 2025 calls are the third round of calls of the CL1 Work Programme 2025.

The European action **HNN3.0** together with the European Commission and Enterprise Europe Network is organizing the next **Horizon Europe Brokerage Event on the 2025 Cluster 1 Health calls for proposals.**

The Brokerage Event is organized before the **Cluster 1 Health INFODAY** that will take place on May 22nd in order to give more time to applicants to find potential partners.

This international partnering event will help you to build your consortium for the upcoming 2025 calls of the 2025 Health Work Programme.

**IMPORTANT TO READ!!!**

The event is free of charge but registration and profile activation are mandatory to attend the brokerage event.

When registering, in order to be validated, **IT IS COMPULSORY TO include at least one Project Cooperation under your Marketplace section** with information on what expertise you are offering or you are looking for against the topic(s) of your interest.

You will receive an automatic e-mail from B2M immediately after your registration and then another e-mail from the organizing team for improving your profile before getting validated if needed : **PLEASE CHECK YOUR SPAMS.**

**Register now**  
Open until 30 April 2025

## Areas of Activity \*

Areas of Activity help us to categorize what you do and offer. This makes it easier for other participants to find you and makes your profile more expressive.

Please select areas of activity that suit your profile.

### DESTINATION - STAYING HEALTHY IN A RAPIDLY CHANGING SOCIETY

Improving the quality of life of persons with intellectual disabilities and their families

### DESTINATION - LIVING AND WORKING IN A HEALTH-PROMOTING ENVIRONMENT

The impact of pollution on the development and progression of brain diseases and disorders

Advancing knowledge on the impacts of micro- and nanoplastics on human health

### DESTINATION - TACKLING DISEASES AND REDUCING DISEASE BURDEN

Testing safety and efficacy of phage therapy for the treatment of antibiotic-resistant bacterial infections

Advancing innovative interventions for mental, behavioural and neurodevelopmental disorders

Development of antibodies and antibody-derived proteins for the prevention and treatment of infectious diseases with epidemic potential

Leveraging artificial intelligence for pandemic preparedness and response

Support for the functioning of the Global Research Collaboration for Infectious Disease Preparedness (GloPID-R)

Implementation research addressing strategies to strengthen health systems for equitable high-quality care and health outcomes in the context of non-communicable diseases (GACD)

Tackling high-burden for patients and under-researched medical conditions

## Register your profile

### DESTINATION - ENSURING EQUAL ACCESS TO INNOVATIVE, SUSTAINABLE, AND HIGH-QUALITY HEALTHCARE

End user-driven application of Generative Artificial Intelligence models in healthcare (GenAI4EU)

### DESTINATION - DEVELOPING AND USING NEW TOOLS, TECHNOLOGIES AND DIGITAL SOLUTIONS FOR A HEALTHY SOCIETY

Enhancing cell therapies with genomic techniques

Advancing cell secretome-based therapies

Leveraging multimodal data to advance Generative Artificial Intelligence applicability in biomedical research (GenAI4EU)

Boosting the translation of biotech research into innovative health therapies

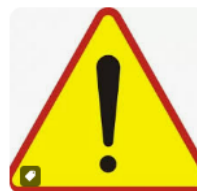

### DESTINATION - MAINTAINING AN INNOVATIVE, SUSTAINABLE, AND COMPETITIVE EU HEALTH INDUSTRY

Optimising the manufacturing of Advanced Therapy Medicinal Products (ATMPs)

Digitalisation of conformity assessment procedures of medical devices and in vitro diagnostic medical devices

Facilitating the conduct of multinational clinical studies of orphan devices and/or of highly innovative ("breakthrough") devices
