

**Project idea/ Field of expertise:**

KETs, NMBPs applications in the marine environment and industries

**Organisation Name:**

**AquaBioTech Group**

**Adressed challenge(s)/ PPP(s):**

- Nanomaterials | Applications and Impacts Assessment in the Marine Environment
- Emerging Technologies in Marine Industries
- Circularity and bioremediation techniques

**Adressed topic(s) in Work Programme:**

- LC-NMBP-31-2020
- CE-BIOTEC-09-2020 | BIOTEC-06-2020
- DT-NMBP-11-2020 | DT-NMBP-04-2020
- CE-SPIRE-07-2020

# AquaBioTech Group

- Maltese company established in 1998
- Areas of expertise: aquaculture, fishery and marine research
- International team of 70+ people from 25+ countries
- Work experience in 57 countries
- Expectations for a 30% annual growth in the next 3 years

## EU-funded projects

# Our expertise

- Establish a pilot demonstration site in Malta
- Past experience in other projects
- Facilities available (boat, divers etc)
- Licensed aquatic R&D facility to carry out ecotoxicology research on various marine species
- Develop protocols for new product development
- Investigate the impacts of new solution to the marine environment
- Impacts of bio-based plastics on marine sectors (fisheries, aquaculture)
- Sustainable solutions / applications on the fisheries and aquaculture sector
- Valorization of waste including design and engineering of waste facilities

# Contact details

---

<b>Contact person</b>	<b>Manya Russo</b>
Organisation	AquaBioTech Group
Address	Central Complex, Naggar Street, Targa Gap, Mosta. Malta
Phone	+356 22584177
E-mail	mvr@aquabt.com
