ENSCONCE

#H2020PartnerHealth

- **SC1-BHC-17-2020:** Global Alliance for Chronic Diseases (GACD) - Prevention and/or early diagnosis of cancer
- **ENSCONCE:** Early diagnosis of cancer: Prevention and clinical management
 - To develop an effective method for early cancer detection, a specific molecular target that has been proved to be associated with cancer should be clearly defined.
 - We have been working closely with oncology centres, R&I (including the SME) and German partners.
 - With our previous studies we had an opportunity to study on early detection of one of the most common cancer type -TRL 3-
- We are seeking for oncology centres, cancer patient associations, SMEs, RTOs, Technology providers and Universities for ENSCONCO consortium.
- We are seeking partners from Ethical and IPR domain.
