#H2020PartnerHealth

- **Academic** institution, private, with status of public interest
- **Country:** Portugal
- **CEGE and Institute of Bioethics**
- **Expertise:**
 - bioethics empirical research
 - palliative and end-of-life care, and person-centred care
 - sustainability in healthcare
 - research ethics with vulnerable populations

- **EU-funded projects:**

- BERC-Luso [Grant agreement: #CSA2016ERC-1414]
- VIRT²UE [CSA_SwafS-27-2017, ID: #787580]
- ENSURE [ERA-NET NEURON ELSA II, ID: NEURON-II/0001/2015]

Project idea and expertise

#H2020PartnerHealth

- **Project idea**

- **Project title:**

- Integration of palliative care in other healthcare services: managing and improving person-centred care

- **H2020 topics:**

- SC1-BHC-24-2020: Healthcare interventions for the management of the elderly multimorbid patient
 - SC1-DTH-13-2020: Implementation research for scaling up and transfer of innovative solutions involving digital tools for people-centred care

Project idea and expertise

#H2020PartnerHealth

- **Project description:**

Patients with multimorbidity (e.g., cancer, chronic and progressive conditions) have complex care needs requiring integrated care models.

This project aims at developing new models, recommendations and priorities on the continuum for integrated palliative care.

Profile of the partners sought:

- Academic and non-academic (e.g., SME digital)
- Expertise in health services research (incl. palliative care for older people, integrated care, person-centred care)
- Roles: available to both coordinate and become a partner leading a WP

Project idea and expertise

#H2020PartnerHealth

- **What we can offer to other proposals:**
 - Expertise in **bioethics empirical research** and **health services research**
 - Expertise in conducting research involving **vulnerable populations** (e.g., patients with dementia, palliative care needs)
 - Expertise in **management and economics** (incl. economic evaluation of healthcare interventions)
 - Expertise in the **ethical screening, monitoring and assessment** of research projects
