Provincia Autonoma di Trento

# AI4PM - Artificial Intelligence Tools and Methods for Personalised Medicine

**SCI-BHC-06-2020 - Digital Diagnostics**

#H2020PartnerHealth

Starting from TreC PHR Ecosystem (currently used in Trento by over 100,000 citizens) build innovative PM, AI-supported tools for improving diagnostics and treatment such as:

- Predictive Models and Algorithms for Disease Trajectories
- Patients Stratification Tools
- AI-based Population Virtual Coaching for Treatment Management
- Self Management Motivational and Persuasive Interfaces
- Healthcare Technologies Evidence-based Validation Methods
- Methods for Validation and Assessment of Economic Benefits of Personalised Medicine

# AI4PM - Artificial Intelligence Tools and Methods for Personalised Medicine

**SCI-BHC-06-2020 - Digital Diagnostics**

#H2020PartnerHealth

We are looking for:

- Clinical Partners with access to retrospective data on chronic diseases
- Partners with access to genomic data
- Partners with expertise in HTA / Cost-Benefit analysis
- Innovative sensors for diagnostics and continuous monitoring
