

Exploitation and commercialisation services in H2020

Dr. Péter Mogyorósi

LC INNOCONSULT
(Hungary)

Exploitation of research results in H2020

LC Innoconsult has been providing complex innovation management services for over 20 years now, primarily including knowledge management, commercialization and technology transfer services, supplemented by our consulting service related to intellectual property rights.

PROJECTS:

- LYNCEUS2MARKET
- OPTINANOPRO
- AGRIMAX
- YPACK
- POLYBIOSKIN
- 37 EXPLOITATION SERVICES

Key competencies and services in H2020

SERVICES:

- **KNOWLEDGE MANAGEMENT**

We help to manage the knowledge generated in the project and adequately protect the project IP.

- **EXPLOITATION OF RESEARCH RESULTS**

Our experienced team is capable to provide the exploitation plan including all the required elements, like market analysis, purpose, main features and benefits of each technology or product and coaching on how to present the business idea successfully.

- **BUSINESS PLANNING**

Business plans will detail how each of the project outputs will be used in commercial exploitation activities for business growth and competitiveness.

- **RESPONSIBLE RESEARCH AND INNOVATION (RRI)**

RRI helps to predict and consider the non-immediate effects of the research on the society and the environment to promote sustainability.
