=

Biomass

1 factory = 50ha of wheat

1 factory frees 49 hectares  
of land for:

Reforestation

Rewilding

Biofactories use electricity  
and water

They can be built on  
the worst land

Desert Mountains  
Underground

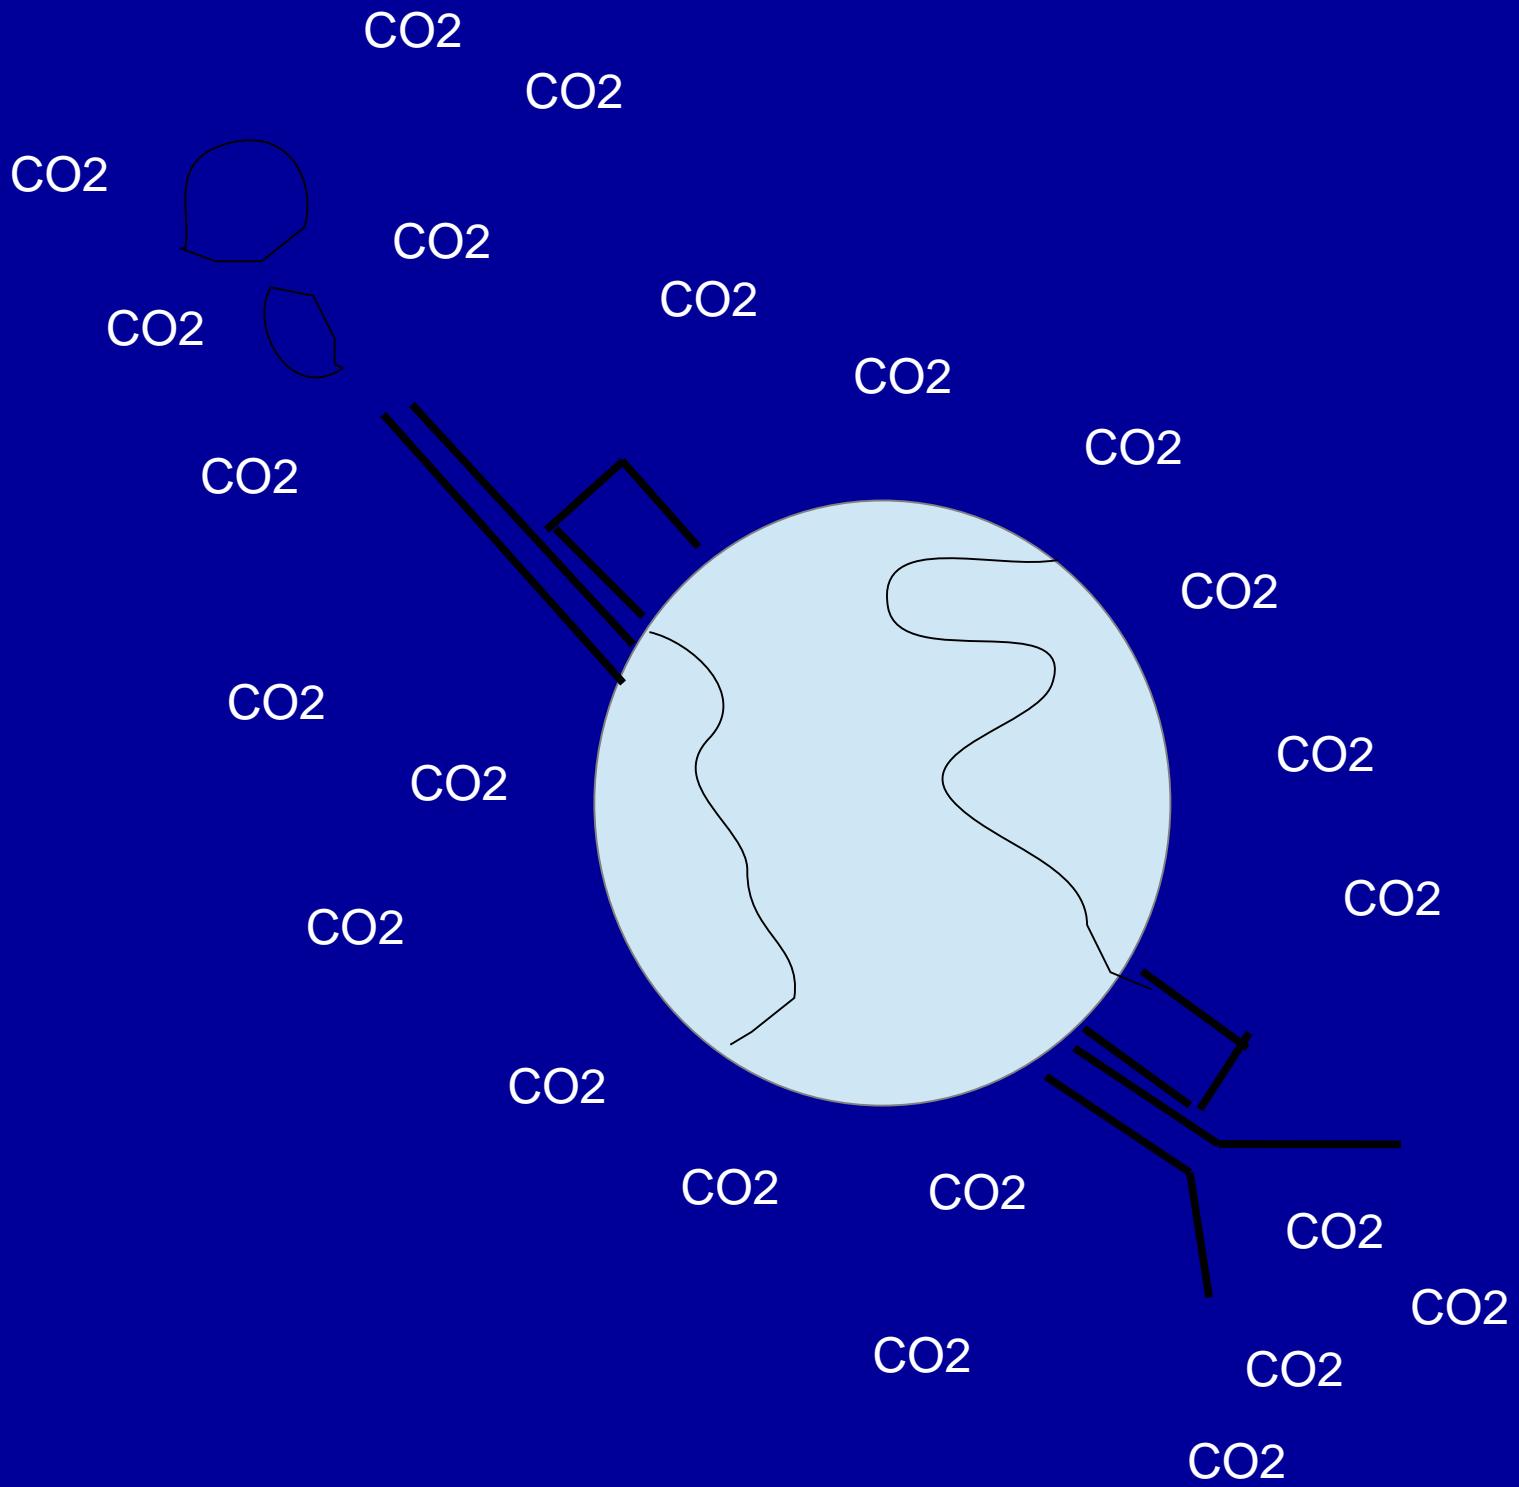

Biomass can be:

Dried and sequestered

Dried pelleted and burned

Converted to biofuels

Used as food for animals  
and fish

£1.5 trillion

per annum
