Working at O&M sector in solar and wind energy production?

We propose you to join us in a virtual meeting to know the latest technologies to increase your productivity.

As part of Durable Interreg Atlantic project, we have organised a one-hour webinar to explain what our technology providers can do for you and to listen to your needs. Throughout the webinar, you will have the opportunity to ask questions and share your points of views. We encourage your participation.

Reserve [here](#) your place for the webinar below according with your language preference (English, French or Spanish) and to know more about the technologies that will be presented.

- **Robotic & Aeronautic Technology Forums**
  - Session 1 - Mainly in Spanish.
  - 10:00 – 11:00 (CET), April 2nd 2020

- **Robotic & Aeronautic Technology Forums**
  - Session 2 - Mainly in English.
  - 10:00 – 11:00 (CET), April 8th 2020

- **Robotic & Aeronautic Technology Forums**
  - Session 3 - Mainly in French.
  - 10:00 – 11:00 (CET), April 22nd 2020

Once the webinar has just finalised, you will have the opportunity to attend virtual B2B meetings with the technology providers, to go in depth in your specific needs. Your opinion will be also taken into account in the future development that Durable consortium will carry out to approach the existing technologies to your real needs.

B2B meetings can be arranged both prior to the webinar and on the same day of the event, but we strongly recommend you to book your meetings in advance. As soon as you and the technology providers confirm availability, an invitation to join the on-line meeting will be received.
