### Testimonials 2019

Claus Habfast  
Grenoble-Alpes Métropole

"it was very useful as it not only allowed me to get a good view of new projects in Spain but also valuable insight into funding mechanisms put into place by the Catalan authorities for regional companies to support such projects even abroad"

Oriol Llevat  
Sabadell City Council

"Thanks to the programme we finally hired a Swedish company that we met at the Brokerage, to organize a virtual reality experience related to sustainability for the citizens of Sabadell"

Deirdre Wallace  
Oxfordshire County Council

"A unique opportunity to connect with global stakeholders and Innovators"

Laura Sarrión  
Terrassa City Council

"Very good initiative and really international. We presented two projects that we are still working on. Thanks to the Catalogue of early demand, we knew about a company from Czechia, who was interested in the project of Terrassa a resilient city"
