Anabana

From the seed to final products. Anabana is a Global GAP certified Guanábana (Soursop) grower and processor company located in the central region of Colombia.

The Guanábana also known us Graviola, soursop, corossol and stachelannone is processed by a very meticulous handmade technique which takes special care of its aspect and flavor, which are key factors in the final product quality.

They have a wide range of Guanábana products that are used in the industrial sector as raw material for juices, smoothies and ice cream preparations. We take special care of traceability for our 75 hectares of Soursop.

They develop private labels for retail and food service companies too.

### Products & quantities per year

Colfrost

Colfrost is a Colombian industrial frozen fruit processing (IQF) and retailer company. They are specialized in frozen products that preserve the original characteristics of the fruit such as taste, smell and texture, adding value to the customers with a product that has longer shelf life, ready to consume and available through the whole year. The main product is frozen Hass Avocado in presentation of cubes, slices and vacuum packed halves, with a shelf life of up to 2 years, meeting the needs of the international market with a 100% export approach and an experience of more than 500 tons exported to the Japanese Market. Colfrost has a production facility under BRC and HACCP standards, a production capacity of 700 tons per year and its privileged central location allows the supply from different regions of the country all year round. The processing plant is located in a Free Trade Zone and a few hours from the main port (Buenaventura) which makes it ideal for exports. There is a second plant under construction with a capacity of 200 – 300 tons per month (2021).

Products & quantities per year
+ Frozen Avocado (dices, slices, halves) / 1200 mt

Certifications
+ HACCP
+ BRC (pending approval)
+ FSSC2200 (Pending approval)

Source of raw material
+ Small farmers associations from post conflict departments like Cauca, Tolima, Risaralda, Antioquia and Valle.

Frutihelen SAS

Frutihelen SAS is a Colombian company producing frozen fruit pulps and juices from a wide variety of fruits. They have their own crops which generate income for farmers and ensure high quality of the fruit from its origin.

Frutihelen is deeply committed to the social and environmental responsibility of Colombia, which they consider essential for the sustainability and improvement of their company. In this regard, Frutihelen works mostly with single mothers, not only improving the quality of life of their employees but also their families. They compost their organic waste, use renewable energy and only invest in environment-friendly, high-tech machinery and equipment for refrigeration and freezing.

**Products & quantities per month**

Fruit pulps / 250 mt:
- Soursop
- Passion fruit

Goldchips SAS

Goldchips SAS is a family-owned Colombian company with 27 years of experience. They produce snacks based on plantain and cassava as raw material. The plantains are harvested by the family of the owners in the Quindío region, therefore guaranteeing the traceability of the product. The raw material meets all the criteria for organic certification and is in the process of biodynamic certification.

The mission of the company is to improve the environmental conditions, support the better social standards for the workers and enhance the life conditions of vulnerable women. Goldchips is already present in the American and European market.

**Products & quantities per year**

+ Sea salt plantain chips
+ Sweet plantain chips
+ Sea salt croutons
+ Tostones

**Certifications**

+ NonGMO
+ KOSHER
+ GLUTENFREE

**Source of raw material**

+ Family owned plantations in the region of Quindío, Colombia.

La Cosecha del Valle

Cosecha del Valle’s mission is to deliver new experiences in flavor through sustainable chili peppers produced in Colombia. They accomplish this mission by growing vibrant varieties of peppers, with different colors, aromas and spices; their production is also small-farmer inclusive. By 2025 they want to become Colombia’s biggest exotic pepper exporter.

Founded in 2012 Cosecha produces and sells spicy products in the Colombian retail market, using their own brand PICANTOS. During the last six years they have managed to position their brand within Colombian consumers and their sales have grown 4x since their first year.

Soon after they realized the potential their exotic peppers had, they started pursuing the exportation. They are expected to keep growing in the European market through the introduction of innovative products such as sweet chilli sauces and superhot pepper sauces. The chilli sauces are made from combining their unique peppers and exotic tropical fruit, and the superhorts are packed in droppers, making them easy to dose. They are named after emblematic animals of the tropics such as Red Dart Frog, Bullet Ant and Coral Snake.

Products & quantities per year
+ Naga Jolokia, Trinidad Scorpion, Carolina Reaper Pepper Paste / 4 mt
+ Tangerine, mango, passion fruit, and other exotic fruit Chilisauce / 30 mt
+ Superhot peppers in dropper / 1 mt

Certifications
+ TBA

Source of raw material
+ Peppers grown by our own company and by local farmers supervised by our company

ADF Groupe

ADF Groupe which is composed by the companies ADF-AGRO and CSF was founded in 2017 and has one main objective: the transformation of raw mangos in order to create a substantial added value to the farmers crops and provide employment opportunities for the rural population in Côte d’Ivoire. ADF Groupe offers both dried mangoes and also fresh fruits for export.

A major concern of the company is to support women in the Ivory Coast and to enhance their general status in life. Furthermore, ADF Groupe assists in creating mango plantations, provides relevant knowledge as well as training for organic production and guarantees to market the farmers’ harvest. This is of high importance to ensure a stable income for the farmers and their families. During the campaign, ADF Groupe employs additional 100 people.

The exports of both fresh and dried mangos to Europe (France and Belgium) as well as to Morocco show the experience of ADF Groupe in facilitating exports.

**Products & quantities per year**
+ Dried Mangoes / 12t to 15t
+ Fresh Mangoes / 70t to 100t

Agroapoyo

Agroapoyo is a company that processes fruits and vegetables, mainly dehydrated and fried. We add value to Ecuadorian raw materials, both tropical and from the mountains: plantain, cassava, pineapple, banana, orange, dragon fruit, among others. We offer bulk products and we launched this year our retail brand YUNIQ, which brings together 20 years of experience as food processors and our variety of healthy, natural and differentiated ingredients.

Austrofood Ltd.

Austrofood Ltd. is a company that started 10 years ago with the mission and commitment of sharing the health related benefits and great flavors that exotic fruits can offer to the world. They cultivate, select and process only the highest quality fruits. For Austrofood Ltd. it is vital to employ people in rural areas where job opportunities are extremely limited. In their plantations they focus mainly on working with women who live under high vulnerability situations. For Wana Bana, the stakeholders are of extreme importance, they generate a positive impact on society by producing healthy and high quality products.

The company has international certifications that guarantee the excellence of their food processes, ensuring a product with global safety and quality.

Quinoa Cotopaxi S.A.

Quinoa Cotopaxi was founded in 2014. The company is the result of over 100 years of hard work, effort, and passion of a family dedicated to agriculture. The company grows its own quinoa to assure high-quality raw materials, under the best agricultural practices. Quinoa Cotopaxi cares about social commitment and supports two projects with indigenous groups in Ecuador. The company teaches indigenous women agricultural practices that help them obtain profits from their crops. They also support the project “Yachay Kawsay”, a Saraguro bilingual indigenous school in the South of Ecuador and the program BE JUST to support education for people with down syndrome.

Quinoa Cotopaxi creates products that are gluten-free and dairy free made with quinoa, under the best standards. By using quinoa, the golden grain of the Incas, the company provides high protein and 100% natural ingredients in each product. Quinoa Cotopaxi produces its own brand as well as under white label.

El Magd for Food Productions

El Magd for Food Products is an Egyptian company specialized in frozen food trade. It was founded in 2009 as a distributor of various frozen food products, and now becoming one of the most successful exporters of frozen fruits and vegetables. El Magd is not only a trader, but a grower of selected fruits items. Being a grower allows the company to control every stage right from cultivation, processing, storage and packaging.

El Magd has a strong partnership with a Cypriot company that promotes the sales of many products in Greece. Recently, the company established a branch office in London (El Magd Foods UK Ltd) to expand in the UK and Europe. The main markets are the Middle East and Europe.

Wanesco Land for Medical Plants

Wanesco is an Egyptian company that produces herbs and medical plants with over 40 years of experience. The facility is located in Beni Suef where most herbs are grown. The company is involved in all steps of production: from growing organic and conventional products to sieving, sorting and packing in PP bags or cardboard boxes. They supply local exporters and overseas customers.

Wanesco believes in long-term business relationships and sets priority to high-quality products according to customer’s specifications. They can pack products as a final product in favor of their customers abroad.

Bench Maji Coffee Farmers Ltd Cooperative Union

Bench Maji Coffee Farmers Ltd Cooperative Union (BMCU) is a Union of 80 primary cooperatives and over 18,000 small holder member farmers based in South West Ethiopia. It was established in July 2005 to operate in Bench Sheko & West Omo Zones to engage in the marketing of coffee, spices, honey and grains on behalf of its member farmers and in order to provide agricultural inputs and other household and production necessities. Member farmers produce wild, forest and semi forest coffee. Honey and spices are widely produced and exported. The Primary cooperatives (PCs) are located in 6 Woredas (districts) of Bench Sheko Zone in South Western Ethiopia which are endowed with high production and marketable potential of coffee, spices, honey, grains and fruits. The Cooperative Union commits itself to promote the livelihood of their members and support the development of the region by delivering high-quality products to the world.

Worga Naturals (Pvt) Ltd.

The Company “Worga Naturals” was established in 2013 as a family business mainly for organic farming. Now the company is working with more than 100 small scale organic farmers scattered in the island to produce quality certified organic agricultural raw materials for different production.

In 2017, the company started its own processing facility with value added organic raw materials, helping mainly the female villagers of the countryside by creating job opportunities and uplifting their economy.

Worga Naturals produces only organic quality retail and bulk products from the best harvest while helping the villagers’ economy.

Sun Antipasti

SUN ANTIPASTI was founded amid the blooming vegetable fields and green hills of Mornag, Tunisia, in 2005. The country is one with incredibly rich, Mediterranean-infused culture, awe-inspiring cuisines, and vast lands of fertile soil. The cultural and traditional aspects of food are weaved through the Tunisian cuisine — SUN ANTIPASTI decided to honor and share this idea. Within its own brand ‘Jardins de Carthage’, SUN ANTIPASTI follows the method of picking the freshest vegetables and transforming them into the classic dishes of Tunisia. Made with most carefully selected ingredients, its wide assortments of antipasti are authentic and true to their origins.

The company is internationally renowned for exporting for over a decade and constantly creating the highest quality products that bring bursts of the exquisite Tunisian and Mediterranean cultures into homes. SUN ANTIPASTI produces its own brand as well as under private label.

Products & quantities per year
(500 pallets / year)
