# Artificial Intelligence, Big Data & Quantum Computing

Company	Description	City
<a href="#">Advanced Climate Systems</a>	We deliver hardware, software and AI solutions for optimisation of building installations.	Groningen
<a href="#">Amberscript</a>	We are creating automatic speech to text engines specifically for our clients, resulting in the highest accuracies in the market.	Amsterdam
<a href="#">BrainCreators</a>	We develop a NextGen application of Artificial & Machine Learning Technologies by delivering digital inspectors that automate repetitive tasks.	Amsterdam
<a href="#">Datacadabra</a>	Applied digital intelligence.	Enschede
<a href="#">Delft Circuits</a>	Hardware for quantum engineers.	Delft
<a href="#">Experience Data</a>	Humanized AI solutions for better operational decision making by experts.	Utrecht
<a href="#">Lalaland.ai</a>	AI-generated humans for fashion eCommerce.	Amsterdam
<a href="#">Qblox</a>	We are pushing quantum technology to support scientists and institutions worldwide with our scalable and low-latency qubit control equipment.	Delft
<a href="#">Semiotic Labs</a>	We aim to eliminate unplanned downtime and energy waste at industry leaders worldwide.	Leiden
<a href="#">OrangeQS</a>	OrangeQS supplies peripheral equipment for quantum computing.	Delft
<a href="#">Quantum Inspire</a>	We want to provide users access to various technologies to perform quantum computations and insights in principles of quantum computing.	Delft
<a href="#">RetinaScope BV</a>	We are developing and bringing to market innovative solutions for ophthalmology, focussing on screening and sensing in combination with AI and big data solutions.	Purmerend
<a href="#">Roseman Labs</a>	Create new data business models with unprecedented compliance based on AI technology.	Breda

## Advanced materials

Company	Description	City
<a href="#">Eurekite</a>	Materials for the products of tomorrow.	Enschede
<a href="#">MantiSpectra</a>	We produce spectral sensors capable of understanding the composition of materials using just light!	Eindhoven

# Consumer Tech/ Advanced Audio/ Entertainment

Company	Description	City
<a href="#">A4M group Netherlands B.V.</a>	We provide Hardware CTO services.	Rotterdam
<a href="#">OrderMe</a>	We provide the opportunity for users to order and pay with their own mobile phone in restaurants, bars, cafes and hotels.	Amsterdam
<a href="#">AlphaBeats</a>	The AlphaBeats app turns your phone or wearable into a biosensor to tweak the frequency of whatever music you like listening to.	Eindhoven

# Energy Transition & Climate Change

Company	Description	City
<a href="#">Carbyon</a>	We develop a uniquely efficient carbon removal technology to help reverse climate change world.	Eindhoven
<a href="#">Incooling</a>	Cooling down the planet, one server at a time.	Eindhoven
<a href="#">ISISpace Group</a>	Global Emission Monitoring from Space.	Delft
<a href="#">Leyden Jar</a>	Boosting battery energy with pure silicon anodes.	Leiden
<a href="#">LightYear</a>	Clean mobility for everyone, everywhere	Helmond
<a href="#">Micro Turbine Technology BV</a>	Accelerating the energy transition for historical buildings.	Eindhoven
<a href="#">Skoon</a>	Clean Energy on Demand: making mobile energy clean, accessible and affordable with our SaaS-Enabled Marketplace.	Rotterdam
<a href="#">SoundEnergy</a>	We convert waste heat into usable cooling by soundwaves.	Enschede
<a href="#">Urban Mobility Systems B.V.</a>	We develop and manufacture BEV's and electrification systems for construction equipment enabling zero-emission transport and construction.	OSS

# Enterprise Solutions

<b>Company</b>	<b>Description</b>	<b>City</b>
<a href="#"><u>COMPO Software bv</u></a>	A glimpse is all we need to unleash the full potential of biometric recognition.	Margraten
<a href="#"><u>Expivi</u></a>	Make online shopping personal with 3D Customization and Augmented Reality.	Eindhoven
<a href="#"><u>Quant Base</u></a>	We develop software tooling to visualise, analyse and communicate data.	Nijkerk
<a href="#"><u>DeltaProto</u></a>	Builders of the the best pick&place cobot for proto pcb assembly in the world.	Broek in Waterland
<a href="#"><u>Scotty Technologies</u></a>	We develop Scotty, the Voice and Chatbot that automates customer contact in- and outbound phone calls, chats and emails in any language and 24/7.	Utrecht

# Future of Work

<b>Company</b>	<b>Description</b>	<b>City</b>
<a href="#"><u>8vance Matching Technologies BV</u></a>	We bring jobs and people closer together through Intelligent Matching.	Venlo
<a href="#"><u>Aivicon B.V.</u></a>	We are introducing I-AM, which will act as a user digital intelligent assistant that will help organizations with transcending organizational structures by engaging all its employees in the innovation process.	Eindhoven
<a href="#"><u>Dialogue Trainer</u></a>	We provide an online platform for communication skills training.	Utrecht
<a href="#"><u>Knowtice B.V.</u></a>	Building resilient organizations: understand and release the potential of knowledge capital.	Margraten
<a href="#"><u>SenseGlove B.V.</u></a>	Making the digital feel real as AR/VR training tool	Delft
<a href="#"><u>SwipeGuide</u></a>	Empower Workforce Excellence with Digital Standard Work.	Amsterdam
<a href="#"><u>Global IT support</u></a>	Best in outstaffing from Ukraine.	Hoogland

# MedTech/HealthTech

Company	Description	City
<a href="#">Absolute Audio Labs BV</a>	Powering HD Audio Hearing Aids.	Hilversum
<a href="#">Breath in Balanz</a>	We develop a unique breathing, coaching, and feedback system that consists of a sensor, proven exercises program, and validated symptoms list.	Meppel
<a href="#">CRDL</a>	We develop an interactive instrument that enables a new form of non-verbal communication.	Maastricht
<a href="#">Delta Diagnostics</a>	Delta Diagnostics, the optical biosensing company, uses its novel photonic chip technology to enable fast and inexpensive development of new diagnostic tests.	Rotterdam
<a href="#">ECG-Excellence</a>	Changing the landscape of noninvasive cardiac diagnostics (again).	Nieuwerbrug
<a href="#">Hable One BV</a>	Accessible computer interfaces for blind and visually impaired.	Eindhoven
<a href="#">LipoCoat</a>	Bio-inspired, antibacterial coatings for medical devices. In the past 3 years, LipoCoat has won 20+ honors and awards, incl. Best Medical Device Coatings Company of 2020.	Enschede
<a href="#">Neurocast</a>	True Passive Patient monitoring.	Amsterdam
<a href="#">Surfix</a>	We are developing a photonic biosensor for detecting covid-19 antibodies.	Wageningen
<a href="#">TNO Holst</a>	Flexible electronics innovations to respond to the global societal challenges of tomorrow.	Eindhoven
<a href="#">ToverTafel</a>	The Magic Table (Tovertafel) is the very first evidence-based game-system that improves the quality of life of dementia patients	Utrecht

# Security & Resilience

Company	Description	City
<a href="#">Didux IO BV</a>	We protect your privacy with blockchain technology.	Rotterdam
<a href="#">Dynaxion</a>	Dynaxion identifies explosives and drugs in parcels and suitcases. For a safer and healthier world.	Eindhoven
<a href="#">Oddity.ai</a>	We are the first to develop a commercial violence recognition algorithm using advanced deep learning techniques.	Utrecht
<a href="#">OPNT</a>	OPNT's Timing as a Service delivers below nanosecond secured timing as a reliable alternative for GPS signals.	Amsterdam
<a href="#">Pandora Intelligence</a>	Advanced data analytics to predict future behaviour.	Leusden

<a href="#"><u>X-SYSTEMS</u></a>	State of the Art Wireless & Mobile Security Technologies.	Den Haag
<a href="#"><u>Zolder BV</u></a>	Zolder provides digital protection for technology of the future.	Noordhoek

## Smart Cities & Smart Mobility

<b>Company</b>	<b>Description</b>	<b>City</b>
<a href="#"><u>AurAir B.V.</u></a>	Practical solutions for indoor air quality monitoring.	Nijmegen
<a href="#"><u>Carver</u></a>	Manufacturer of smart urban mobility.	Leeuwarden
<a href="#"><u>CASTODIAN</u></a>	Our solution to head injuries in motorcycle accidents is a one-of-a-kind multi-sensor device, that provides the user unparalleled, life-saving information, insights and advice.	Nijmegen
<a href="#"><u>Citybeacon</u></a>	We help transform urban environments into hyperconnected, data driven environments enabling city, citizens and things to bring relevant experiences, services and functions in beautiful intelligent form factors: Citybeacons.	Rotterdam
<a href="#"><u>CopSonic / All is One BV</u></a>	True contactless communication to manage the Covid-19 afterlife.	Amsterdam
<a href="#"><u>Hardt Hyperloop</u></a>	A world where distance does not matter.	Delft
<a href="#"><u>Hydraloop Systems BV</u></a>	We develop award winning decentralized water recycle products for homes, office buildings, hotels, student housing and sports clubs amongst others.	Leeuwarden
<a href="#"><u>TRIBUS</u></a>	We are working on building the citybus of the future; the Movitas, a very efficient, highly agile and of course zero emission city bus that will change public transport in the inner cities.	Utrecht
<a href="#"><u>V-TEC Lasers &amp; Sensors</u></a>	We provide technology and products for creating, transporting, bundling and analyzing data.	Eindhoven
<a href="#"><u>Ximedes BV</u></a>	We help our customers to develop their ideas into software, to stay ahead of their competition.	Haarlem

# Sustainability & Circularity

Company	Description	City
<a href="#">Birds.ai</a>	Bringing new insights to asset managers through data and AI.	Delft
<a href="#">Circularise</a>	Using Blockchain to drive supply chain transparency.	Rotterdam
<a href="#">Closing the Loop B.V.</a>	Pragmatic Sustainability for IT.	Amsterdam
<a href="#">D2D Water Solutions B.V.</a>	We develop, produce and supply smart purification systems for water to use at home, in offices, schools or wherever clean water is needed.	Hardenberg
<a href="#">ECO Wheat Straws BV</a>	We have been developing natural wheat straw products to reduce CO2 emissions worldwide.	Maastricht-Airport
<a href="#">Follow B.V.</a>	Where transformation starts. A social network that makes sense.	Amsterdam

# Telecom/5G, IoT, Photonics & NanoTech

Company	Description	City
<a href="#">Aircision B.V.</a>	Empowering the High-Speed Connected World.	Eindhoven
<a href="#">AlarmSecur.com</a>	Our IoT platform integrates any sensor triggered device (like an alarm system) with CCTV and will send push notifications to your phone .	Rijswijk
<a href="#">Hiber</a>	Telecom platform using low orbit satellites for smart IoT solutions	Amsterdam
<a href="#">i4Things B.V.</a>	Smart Home made easy	Roermond
<a href="#">Morphotonics B.V.</a>	We develop and sell roll-to-plate (R2P) OEM production technology for imprinting nano- or microstructures on extremely large area substrates.	Veldhoven
<a href="#">Olisto</a>	We make connected devices and digital services work together, following rules you set yourself.	Amsterdam-Duivendrecht
<a href="#">Tapp.online</a>	Connecting the unconnected.	Joure
