A wonderful serenity has taken possession of my entire soul, like these sweet mornings wonderful serenity has taken possession of my entire soul, like these sweet mornings.

The National Reference Centres (NRC) are innovation and experimentation centers that act at the service of the vocational training systems to respond to changes in the demand for qualifications in the productive sectors. They programme and execute actions of an innovative, experimental and training nature that serve as a reference for the whole of the National System of Qualifications and Vocational Training within the scope of their family or Vocational Area and for the whole state.

The NATIONAL REFERENCE CENTRE FOR FOOD INDUSTRY, VEGETABLE CANNED (NRC-VC), depends on the Ministry of Education and Vocational Training and the Regional Ministry of Water, Agriculture, Livestock, Fisheries and Environment of the Region of Murcia, with the collaboration of the State Public Employment Service (SEPE), Ministry of Labour and Social Economy, being officially created in 2015 in Molina de Segura (Murcia).

TARGETS OF THE NRC

The NRC: INNOVATES, TRAINS, INFORMS, TRANSFERS KNOWLEDGE AND TECHNOLOGY, DEVELOPS, and EXPERIMENTS, training the professionals of the future within the sector, with the most innovative techniques that exist at all times and on cutting-edge topics; this means interacting with the sector, technology and research centres in all intellectual, innovative and productive transfer.

In short, everything that helps in the development, competitiveness and satisfaction of the qualification needs of the workers in the CANNED AND PROCESSED VEGETABLES SECTOR.
