

Join us to internationalize and innovate

The virtual 6th International B2B Software Days on 10 - 12.05.2021 are organised by [FFG](#), [WKO/Advantage Austria](#), the [Vienna Business Agency](#) and [TU Wien](#) in collaboration with the [Enterprise Europe Network](#) and the [go-international initiative](#).

Take the opportunity to

- get inspired by **fascinating keynote speeches**
- enlarge your personal network by **pre-arranged B2B meetings**
- **pitch your business idea** in front of international investors
- participate in **outstanding workshops**

The event is **free of charge** and primarily targets companies and R&D institutions looking for technological, research and business cooperations.

Due to the global Covid-19 situation we hold this event as a **virtual event**. Therefore, we can only stream this happening from one of the most beautiful locations - the Viennese City Hall. We expect **2000 participants** from all over the world.
