approach

International  
cooperation

# EUREKA instruments

# EUREKA call for R&D project proposals

## > **Motivation for this call**

- Common interest in bilateral collaborations in the areas of Digital Health and Biotech-pharma
- Shared ambitions in Swiss Health Policy Strategy and Netherlands Health & Care missions
- Complementarities between the Netherlands and Switzerland in digital health, promoting use of 'real life' data and digital technologies to assist citizens managing their health

# eHealth Call for R&D project proposals

## Scope

The primary focus of this call will be on:

**Stimulating application-driven research and development of technologies and innovations**

**that allow children and adolescents in the primary/secondary school context, as well as their families and (in)direct relatives, to gain insight into their own health, related to their daily functioning and (inter)related determinants, manage their health and daily functioning and contribute to health research (i.e. citizen science)**

**through the use of health (related) data, with a view to improving both individual and population health.**

# EUREKA call for R&D project proposals

## > **Aim**

- Support a few, complementary and high impact R&D projects

## > **Consortia**

- Min. 1 company & 1 research organisation & 1 public partner in each country
- Well balanced

## > **Project**

- Joint research & development activities resulting in marketable products/services
- Project duration max. 3 years
- Collected, generated and/or used data are shared between partners and are FAIR

# EUREKA call for R&D project proposals

## > **General evaluation criteria**

- Impact (societal and economic benefits)
- Excellence
- Quality and efficiency of implementation

## > **Call specific evaluation criteria**

- Complementarity & enhance R&D through transfer of knowledge and expertise
- Strong partnership aiming for longer term cooperation
