

JORDAN DATES UNITED KINGDOM

VIRTUAL B2B MATCHMAKING EVENT

June 7th - 24th 2021

Meet quality suppliers

Introduction

This brochure highlights the 6 elite Jordanian dates producing companies taking part in the Jordan Dates United Kingdom Virtual B2B Matchmaking Event.

JEPA (Jordan Exporters and Producers Association for Fruit and Vegetables) is the main host of this event. JEPA is the number one association when it comes to supporting exporters in the Fresh Fruit and Vegetable Sector in Jordan.

Our co-organizing partners are CBI (Centre for the Promotion of Imports from developing countries), JODA (Jordan Dates Association) and CHA (Commercial Horticultural Association)

Medjool Dates

Medjool dates are a variety of dates enjoyed for their natural sweetness. They’re larger, darker, and more caramel-like in taste than other common types like Deglet Noor. As tropical stone fruits, they have a single pit surrounded by edible flesh. Medjool dates are popular in Jordan. Here are a few facts:

- The number of palm trees in Jordan is about half a million.
- The volume of investment in the palm sector in Jordan exceeds half a billion dollars.
- The number of workers in the palm cultivation and production sector in Jordan is approximately 7,000 workers, of whom about 40% are women.

About the event

Start of the event

The event will start at 10:00 am on June 7th.

How to schedule an online meeting with quality dates suppliers from Jordan

Please fill out the separate attached application form with your company details and send it to:

jepa@jepa.org.jo

JEPA will then create an online profile for you in B2Match and send you the access codes by email. After receiving your access codes you can immediately start checking your profile and booking your meetings.

About the event

Jana Farms of Jordan

In Jana's Farm, taking care of business means, making sure that our crops are of the best quality, and the process by which we cultivate it, is a safe and environment-friendly process. A balancing act, that we pride ourselves of being extremely good at. Established in 2011, with 40 Donums in the Jordan Valley. Today, Jana's Farm, spans 170 Donums with over 100 employees (from the local community) and our products are found in the supermarkets in Jordan and across the Middle East. We offer Quality products and continuously research to introduce high quality products to the market. Jana Farms can export up to 100 tons of Medjool dates annually.

Palmera Dates Agriculture and Trading

Palmera Dates Agriculture and Trading in Jordan, established in 2019 as the culmination of previous joint ventures between Alfoah Company and The Blume Group for Agricultural Investments in Jordan over the past two years. It is a unique model of public-private sector partnership in The United Arab Emirates and the Hashemite Kingdom of Jordan, where Palmera works in partnership with the King Abdullah II Fund for Development and Al-Haq Foundation in The Hashemite Kingdom of Jordan on several strategic levels to support the agriculture sector in the Kingdom. Particularly the Medjool Palm sector by facilitating direct access for farmers to international markets through Alfoah distribution network in 45 countries around the world and on absolute commercial basis. Palmera Dates can export up to 700 tons of Medjool dates annually.

Jordan River Dates

Bringing in more than 30 years of experience in the agricultural sector, Jordan River Dates was launched in year 2000 under the umbrella of 'White Sand Palm Dates Farms' which was established in 1971.

This new launch marked a shift from planting bananas, citrus trees, and vegetables towards planting Date Palm trees. Jordan River dates aims at being the apex leader in the date agricultural sector in Jordan, continuing to pour quality, calibre, and competitive prices to worldwide clients. Jordan River Dates can export up to 200 tons of Medjool dates annually.

Abu Ayyash Farms

Grown at the heart of the deepest valley in the world, our Medjool dates have a distinctive taste unmatched by any across the globe. These medjools are handpicked at the perfect timing of the ripening stage at our family owned and operated farms. We then proceed by sorting each date to volume, weight, colour, moisture content and skin properties viewing 360° of every single date surface with the worlds most advanced artificial intelligence sorting technology at a rate of 1 kg/second. Our unique methodology and focus on producing only the finest quality ensures a consistently uniform product in every pack. Dates are our family's legacy, exceptional quality is our promise. Abu Ayyash Farms can export up to 100 tons of Medjool dates annually.
