BIOKET

The global conference dedicated to
PROCESSES AND TECHNOLOGIES APPLIED TO BIOMASS

organized by

IAR

INTEGRATE THE
START-UP VILLAGE

Lille (France), March 15th–17th, 2022

The third edition of BIOKET, the international conference organized by IAR – The French Bioeconomy Cluster, dedicated to Key Enabling Technologies (KETs) will take place on March 15-16-17, 2022 in Lille (France).

The conference, which gathers 300+ international delegates, aims to highlight bio-based process innovations from pilot to early commercial scale (Agenda).

In this context, BIOKET 2022 wants to give a bright place to a **selected number of start-ups implementing their technologies in the bioeconomy world.**

Among the BIOKET's main topics:
- Advanced and innovative biomass pretreatment – Physical and thermochemical pretreatment – Densification - Fractionation
- Technologies for biomass conversion and functionalization
- Extraction, separation, and purification of biomass
- Process modelisation and analytical methods and tools - in situ characterization technics
- Innovative tools: Enzymatic and metabolic engineering, synthetic biology and bio nanotechnology
- Design of bioprocesses, advanced fermentation

Seize your opportunity today to integrate our village and meet your would-be partners and potential investors!

Advantages of the village*:

- One (1) free delegate pass for the 3 days (March 15-16-17th)
- A table-top displayed in the Start-up village in the exhibition area of BIOKET (March 16th-17th)
- Access to the conferences
- Access to the B2B meetings
- Access to the Innovation Tours
- Access to the workshops

*By submitting an application, you agree to make yourself available for the 3 days of the event.

Submissions:
- Complete and return the start-up village application form below to Mrs Annabelle HEYVAERT at heyvaert@iar-pole.com
- Deadline is **Friday January 28th, 2022 – midnight CET**
- **Option:** In addition to the application form, you can send us a company presentation in 5 to 10 powerpoint slides
