# WEBINAR

## INTERMODAL LOGISTICS

Wednesday, 27.04.2022

### PROGRAMM

virtual

**Wednesday, 27.04.2022**

---

The main topic of this webinar is to showcase and discuss eco-friendly modes and business cases how to connect economic regions in Europe and Asia.

In this regard we will especially focus on intermodal rail freight transport and its potential to long-distance connections. There will be several presentations about intermodal logistics concepts for heavy goods and the linking of rail with land transport and sea freight.

The target group for this webinar are industrial companies with transnational transportation needs in the following areas:

- Agriculture
- Chemicals
- Petroleum, mineral oil
- Automotive industry
- Forestry industry
- Wood industry
- Steel
- Other raw materials

This platform initiates an exchange of knowledge on technological developments and trends.

### Programme:

- Welcome remarks: WKÖ AUSSENWIRTSCHAFT AUSTRIA Mobility, Beatriz Schönstein-Wippel
- Opening plenary: Rail Cargo Austria management board, Austrian Logistics initiative
