

KVARNER HEALTH TOURISM CLUSTER

Health & Holiday all in one place

KVARNER
HEALTH
Croatia

HOW TO REACH US?

BY ROAD

It takes just a few hours drive to reach Kvarner from European countries by car, as the region has good connections to all European capitals.

This is best shown on geographic maps. They show how Kvarner and the surrounding Adriatic Sea are deeply recessed into the mainland, thus representing the meeting place of the Mediterranean and Central Europe as well as a close neighbour to Ljubljana, Vienna, Trieste, Venice, Milan, Munich, Budapest, etc.

Traffic and road conditions >> www.hak.hr

BY AIR

Kvarner is connected by air to many European cities via scheduled, low-cost and charter flights. Rijeka International Airport lies on the island of Krk, at the very heart of the region. The unforgettable views of the azure Mediterranean are therefore, for many travellers, the first experiences of the Kvarner region. Kvarner also has two airfields – one on the island of Lošinj, the other in Grobnik in the hinterland of Rijeka.

THE PAST AND PRESENT OF HEALTH TOURISM IN THE KVARNER BAY

Photo by: Hrvoje Serdar

The Republic of Croatia is rich in natural and cultural sites, which is why many tourists from all over the world visit our country. Going a bit into the past, we must note that organized tourism in Croatia began right here at the Kvarner Bay, more precisely in Opatija. It was here that the first mansion known as Villa Angiolina was built in 1844, a sumptuous residence which hosted many famous people like the Austro-Hungarian emperor Francis Joseph, the Empress Maria Ana and Ban Josip Jelačić.

Forty years later, the first Croatian hotel on the Adriatic opened its doors to its guests - the Quarnero Hotel, whose present-day name is the Kvarner Hotel. In the meantime, many amazing villas, hotels, beautiful summer residences, baths, promenades and parks were created. Opatija was officially declared a climate health resort in 1889, and this title was not bestowed upon it without reason. In addition to Opatija, climate spas in our county were built in the late 19th and early 20th centuries in Crikvenica, Veli and Mali Lošinj, on the island of Rab, and in the mountain towns of Skrad and Delnice. We are free to say that Kvarner has opted to be a location of health tourism from the very beginning and today, with its beneficial climate, modern and well-equipped health facilities, a broad tourist offer and polished staff, it heals the body and mind of many foreign guests.

Photo by: Ivan Brčić

With the desire to offer its guests a complete range of health tourism services following the global trends and to raise the quality to an even higher level, the Kvarner Health Tourism Cluster was established – you are holding our brochure in your hands. The synergy of public and private institutions from three different segments - health, tourism, science and education, make the Kvarner Health Cluster unique not only in Croatia but also in Europe.

The cluster is guided by the vision of the Kvarner Bay as a tourist destination positioned among the leading health destinations on the map of Europe and beyond, which will offer high quality health tourism services throughout the year, based on contemporary trends, resources and tradition.

This basis is a guarantee that all those who want to improve their health and choose the Kvarner Bay have made the right decision. They will visit a place where it is possible to attain fully physical, psychological and spiritual well-being – everything that makes up the essence of health.

KVARNER REGION TOURIST BOARD

THE KVARNER REGION A SUMMARY OF HEALTH AND WELLNESS

Kvarner is the tourism brand name for the Primorje-Gorski Kotar County and it encompasses the coastal areas of Opatija, Rijeka, Crikvenica and the islands of Krk, Rab, Cres and Lošinj, along with the mountainous hinterland. The coast, the islands and the mountains provide for a variety of experiences in nature – from walking, hiking and cycling to playing tennis, swimming in the sea, enjoyable daytrips, sightseeing tours of historical towns and cultural events. In addition, the Kvarner region features a particularly beneficial climate – simply breathing the sea air and the fragrances of aromatic plants and green forests will essentially invigorate the body and the mind. The Kvarner region, as a tourist destination, is also well known for its superb Mediterranean cuisine, excellent wines, natural and cultural heritage together with a long tradition of health tourism.

The Kvarner region has been a brand name in health tourism since the late 19th century, when, as part of the Austro-Hungarian Empire, certain spots were proclaimed as “climatic health resorts”.

Our Adriatic Sea contains more than 80 essential minerals. The temperature of the sea reaches 26°C in summer, sometimes remaining as high as 17°C in spring and autumn. Also, Kvarner has numerous freshwater springs and lakes and is a significant area for the preservation of biodiversity. It is therefore understandable that medical experts recommend the benefits of staying here with a particular emphasis on the effects of seawater and highly concentrated sea air. Today, marine-based treatments and climatic elements continue to be key features of therapies in the area and some therapeutic centres have been active for more than half a century.

Yet another level where Kvarner qualifies among the top European destinations is medical tourism. A wide range of clinics, polyclinics, dental clinics and thalassotherapy centres combines highly qualified medical teams and modern equipment offering specialized services in the field of orthopaedics, physical rehabilitation, cosmetic surgery, dental implantology, dermatology, and many more.

There can be no mistake in trusting the quality of the medical facilities of the Kvarner region. In brief, the Kvarner region is an acknowledged and a well-established tourist destination.

KVARNER REGION TOURISM OFFICE
KVARNER
Diversity is beautiful

THE CRIKVENICA RIVIERA - AN OASIS OF WELLBEING

The Crikvenica Riviera lies in the embrace of the blue, clear sea and the green outback of Vinodol. It is graced with a healthy and mild climate, beautiful nature and rich cultural and historical heritage. The ideal destination for socializing with friends, holidaying with your family, enjoying an active vacation on the move or relaxing on the beach.

The heart of the Riviera is the town of Crikvenica, the proud owner of the most beautiful beach on the Adriatic Coast. Three other towns - Selce, Dramalj and Jadranovo are ideally located making sure everything is at your disposal.

The Riviera has a rich history to feed the imagination, its city squares and street corners transform into open-space theatre sets, its gastronomy highlights both the traditional and the modern, offering a combination of unique tastes of the Mediterranean and the infallible drop of Vinodol wine. The Riviera challenges its fitness, health and recreation enthusiast visitors with superb offers.

For over 130 years the natural healing components of the Crikvenica Riviera have worked to reveal a unique formula for good health - here the healthy sea air blends with the fresh mountain air only to enhance the scents of local aromatic herbs and sea salt drops.

You will enjoy walking through the Love Path, exploring Kissing Spots, walking through the Mediterranean labyrinth of love ... Here you will also find that special attention is given to pets, your friendly companions. In an area where the sun blissfully loves the sea, where tiny drops of well-being spring from all around, it is easy to forget the time and let yourself slide with a tide of positive energy.

When you are in need of a blue-green hug, some nourishment for both body and soul, yearning for closeness to nature, the Crikvenica Riviera awaits as your most trusted friend.

LOŠINJ – ISLAND OF VITALITY

The mild climate, rich biodiversity, more than 1018 plant species, 239 of which are medicinal herbs, crystal clear sea and clean air, more than 200 sunny days a year and a pleasant atmosphere are just some of the benefits that make Lošinj today a well-known aromatherapy centre – a destination for vitality, health tourism, and for all environmentally-conscious guests.

Lošinj was proclaimed a climatic health resort by the decree of the Ministry of Health of the Austro-Hungarian Monarchy in the 19th century, and today it is the perfect place for achieving balance of mind and body.

The tradition of health tourism for over 125 years is an important segment of the offer, and the combination of the scent of dense pine forests, medicinal herbs and aerosols of the sea create a unique aromatherapy in the open air.

Apart from the natural aromatherapy which you will feel on your first step in Lošinj, there are many other reasons why you will be glad to return to this veritable island of vitality:

Why Lošinj?

- numerous breath-taking beaches and hidden coves
- magical sunsets
- vistas from which the view creates a postcard to remember
- islands with more than 200 resident dolphins
- a diverse range of outdoor activities, wellness and wellbeing programs
- more than 250 km of hiking and biking trails
- a modern and unique museum dedicated to only one exhibit - a statue of Apoxyomenos, over 2000 years old, found on the sea bottom near Lošinj
- Lošinj Nerezinac Lugger - Sailing Interpretation Centre
- numerous sports, traditional, concert and festival events
- light Mediterranean diet and more ..

OPATIJA TOURIST BOARD

THE QUEEN OF THE ADRIATIC

Opatija, a magnificent coastal town on the Adriatic Sea and a well-known 19th-century health resort, lies at the centre of the Riviera with the longest tradition of tourism in Croatia. Well-maintained public gardens, the illuminated coastal promenade Lungomare, well-kept beaches and fountains provide a stunning backdrop for the villas and hotels that cater comfortably to more than 9,000 guests.

NATURAL HERITAGE

It is hard to describe Opatija's luxuriant green and blue. Angiolina Park is one of the most celebrated parks in Croatia and the most famous park in Opatija. Between lush parks and magnificent villas on the one side, and foaming waves on the other, there lies the 10-km long Lungomare promenade. In the hinterland of Opatija there is the Učka Nature Park, with numerous hiking and biking trails.

THE CRADLE OF WELLNESS & HEALTH TOURISM

Opatija was preordained as a destination for wellness and health tourism due to its pleasant Mediterranean climate and the benefits of its sea. The town is ideal for a quiet stay in a relaxing atmosphere.

EVENTS

Throughout the year in Opatija there are always surprises for the guests: from the Carnival and Balinjerada (a race of vehicles on ball bearings instead of wheels), to the Oasis of Wellness, Gourmet Story of Opatija Riviera and dramatic musical shows „RetrOpatija“ all the way to the “Opatija – Imperial City“ culminating in the Advent and Chocolate Festival.

GASTRONOMY

The unique position between the sea and the mountains created a specific gastronomic concept which is the combination of light coastal cuisine of fish and seafood and continental specialities, mainly meat dishes.

CREATE YOUR OWN MOSAIC OF EXPERIENCES

The City of Rijeka and its circle of interesting places and facilities are a unique blend of blue and green, dynamic and relaxed, old and new, calm and filled with adrenaline...

The City of Rijeka is located by the sea and has all the facilities you could want from a Mediterranean tourist centre: beautiful beaches, promenades, squares and streets, a rich program of events and a unique atmosphere. In addition, the rich and diverse surrounding area provides you with the opportunity to escape into tradition, romance, pristine flavours or adrenaline sports and even - why not? - a ski resort overlooking the sea. Truly, a unique mosaic!

The Rijeka's calendar is full of events throughout the year, so regardless of when they visit, guests will find many interesting and attractive shows including music, drama, art ... as well as urban youth clubs that offer entertainment precisely adapted to their needs. There is a rich list of cultural performances and traditional events that mark the vibrant Rijeka streets, squares or the beautiful areas of cultural institutions – especially in the summer. A special year for Rijeka will be 2020 when the city will be the European Capital of Culture.

DISCOVER THE SURROUNDING AREA

If you ever wish to replace the blue of the sea with the greenery of the forest, urban dynamics with the quiet of a secluded beach, city streets with romantic historical towns, modernity with tradition, tranquillity with adrenaline, your choice will be to explore the rich surrounding area of Rijeka with its tourist gems of Kastav, Kraljevica, Bakar and Kostrena, Viškovo, Jelenje, Klana and Čavle. Each of them will offer a unique and interesting story in which you are not just spectators, but the key protagonists. From everything that surrounds you, you will put together the mosaic yourself, according to your preferences.

And this is exactly why you have chosen Rijeka, right?

TERME SELCE
HEALTH CLINIC

SPECIAL HOSPITAL DR. NEMEC

Dr. Nemic Special Hospital was founded in 2004 as the first private special hospital for orthopaedics dedicated to treating injuries and diseases of the locomotor system.

In the treatment of our patients, we use the latest surgical approaches to ensure a rapid and effective recovery. Our physicians and other medical staff are constantly upgrading their knowledge through a continuous exchange and cooperation of the Dr. Nemic Hospital with other renowned institutions worldwide.

The priority of the hospital is to choose an individual therapeutic approach for the treatment of each patient. We are aware that surgery is a highly stressful experience for most patients. Therefore, a calming environment and personal counselling before the surgery assists us in familiarizing the patient with all steps and aspects of the procedure to be performed. By taking this approach we are able to ensure an optimal outcome of the intervention and carry out the best possible postoperative care.

SPECIALTY HOSPITAL MEDICO

Since its establishment in 1991, the Specialty Hospital Medico was dedicated to the pursuit of highest possible quality of its service and to recruiting top experts in its field. Medico is known for its state-of-the-art diagnostic and therapeutic infrastructure, the minimally invasive surgery and the top-class physicians. Medico provides 16 different specialist medical interventions, which involve 24 specialties and subspecialties. For patients from Istria, Medico has also opened a branch in Pula. Due to a constant upgrading of quality, we were the first hospital in Croatia to successfully complete the rigorous accreditation process and receive the Certificate of Excellence from the American Accreditation International Commission (AACI). In addition to the AACI certification, Medico is the holder of the Quality Management System Certificate EN 15224, the highest standard of hospital and specialist polyclinic services.

THALASSOTHERAPIA CRIKVENICA

Thalassotherapia Crikvenica is a medical centre with a century-old tradition of health care in thalassotherapy treatment specifically in disease prevention, medically assisted relaxation and rehabilitation. Located on the coast of a bay featuring crystal clear sea and a pebble beach, surrounded by a park of Mediterranean greenery, it is an ideal choice for thalassotherapy treatment, recuperation and rest. The rarely found climatic profile of mild winters and warm summers, coupled with clean air rich in marine aerosol and the pristine shallow sea contribute to the healing effects. Today, Thalassotherapia is a modern medical institution combining the age-old principles of thalassotherapy with modern medicine, achieving remarkable results in the treatment of diseases of the locomotor system and respiratory organs in children, adults and the elderly.

DENTAL CENTER KALMAR IMPLANT DENTISTRY

The Kalmar Clinic combines tradition and up-to-date standards. Its beginnings date back into 1950 and today it operates on 10 locations. We encourage you to visit the most modern clinic in Europe built in 2016. We offer the highest standards of quality and sterilization. We possess the ISO 9001: 2015 and the Temos certificates for Quality in Dental Services.

In our work we use European materials made by Straumann and Ivoclar Vivadent. All our dental projects are covered by appropriate long-term guarantees. We have our own laboratory with 11 dental technicians and are able to offer a variety of dental solutions. CAD / CAM technology is at our disposal as well. We offer free patient consultation and our proposal for the dental solution is also free of charge. It is possible to arrange transportation and accommodation of patients on their request.

Additional services: free guarded parking, the clinic's own relax zone by the pool, the Forchetta Restaurant with Mediterranean cuisine.

DENTAL CLINICS RIDENT

The Rident Dental Polyclinic was founded in 2004 in Rijeka, and in 2013 a branch office was opened in Poreč. The multidisciplinary team of the Rident Clinic consists of 50 dental doctors, of which five are specialists in oral surgery, periodontology, orthodontics, dental prosthetics and pedodontics and provide a comprehensive dental service. Patients are provided with the complete service in one place - from implantology, oral surgery, periodontology, fixed and mobile prosthetics, preventive and conservative dental medicine, aesthetic dental medicine, orthodontics, pedodontics, radiology, all of which is supported by our own dental laboratory. In 2017, the Rident Clinic confirmed its quality by winning the award for the best international dental clinic given by the International Medical Travel Journal, a renowned web platform for health tourism.

EDUCATIONAL INSTITUTIONS

■ 35 Faculty of Tourism and Hospitality Management

FACULTY OF TOURISM AND HOSPITALITY MANAGEMENT OPATIJA, UNIVERSITY OF RIJEKA

The Faculty of Tourism and Hospitality Management Opatija (FTHM), established in 1960, is the only Croatian institution of higher learning focusing on education and scientific aspects of tourism, hospitality and sustainable development. It organizes undergraduate, graduate, postgraduate specialist and doctoral studies (EDAMBA), as well as lifelong learning programs, and provides the possibility of student mobility through Erasmus programs and Ceepus networks. Since 1995, the Faculty publishes the journal "Tourism and Hospitality Management" and is engaged in numerous scientific and professional projects, including some funded by the EU. FTHM in 2011 won the Anton Štifanić award and in 2012 UNWTO recognised it among 120 leading educational institutions worldwide. In cooperation with the Faculty of Medicine and Faculty of Humanities and Social Sciences, FTHM organizes the postgraduate specialist study programme "Health Tourism".

AMADRIA PARK OPATIJA

Amadria Park in Opatija is renowned for its exquisitely designed hotels, situated on most attractive locations in Opatija's centre. The hotels are home to some of Opatija's most popular cafés famous for their beautiful terraces overlooking the sea and an irresistible selection of locally made cakes. A gastronomy offer to delight any foodie, made from locally sourced produce, traditional Croatian fare, seafood and meat specialties can all be enjoyed at Milenij's

Restaurant Argonauti. To complete the dining experience, there is Milenij Choco, the local production of the hotels' branded chocolate where guests can also see how chocolate and pralines are crafted by hand. Amadria Park Opatija hotels have two wellness centers for total relaxation – Milenij Spa, for relaxing with a touch of luxury, and Wellness Oasis, offering treatments with the scents of the Mediterranean.
