

Cities' Challenges Pitch Session 22nd November 2022

CERN GREEN VILLAGE

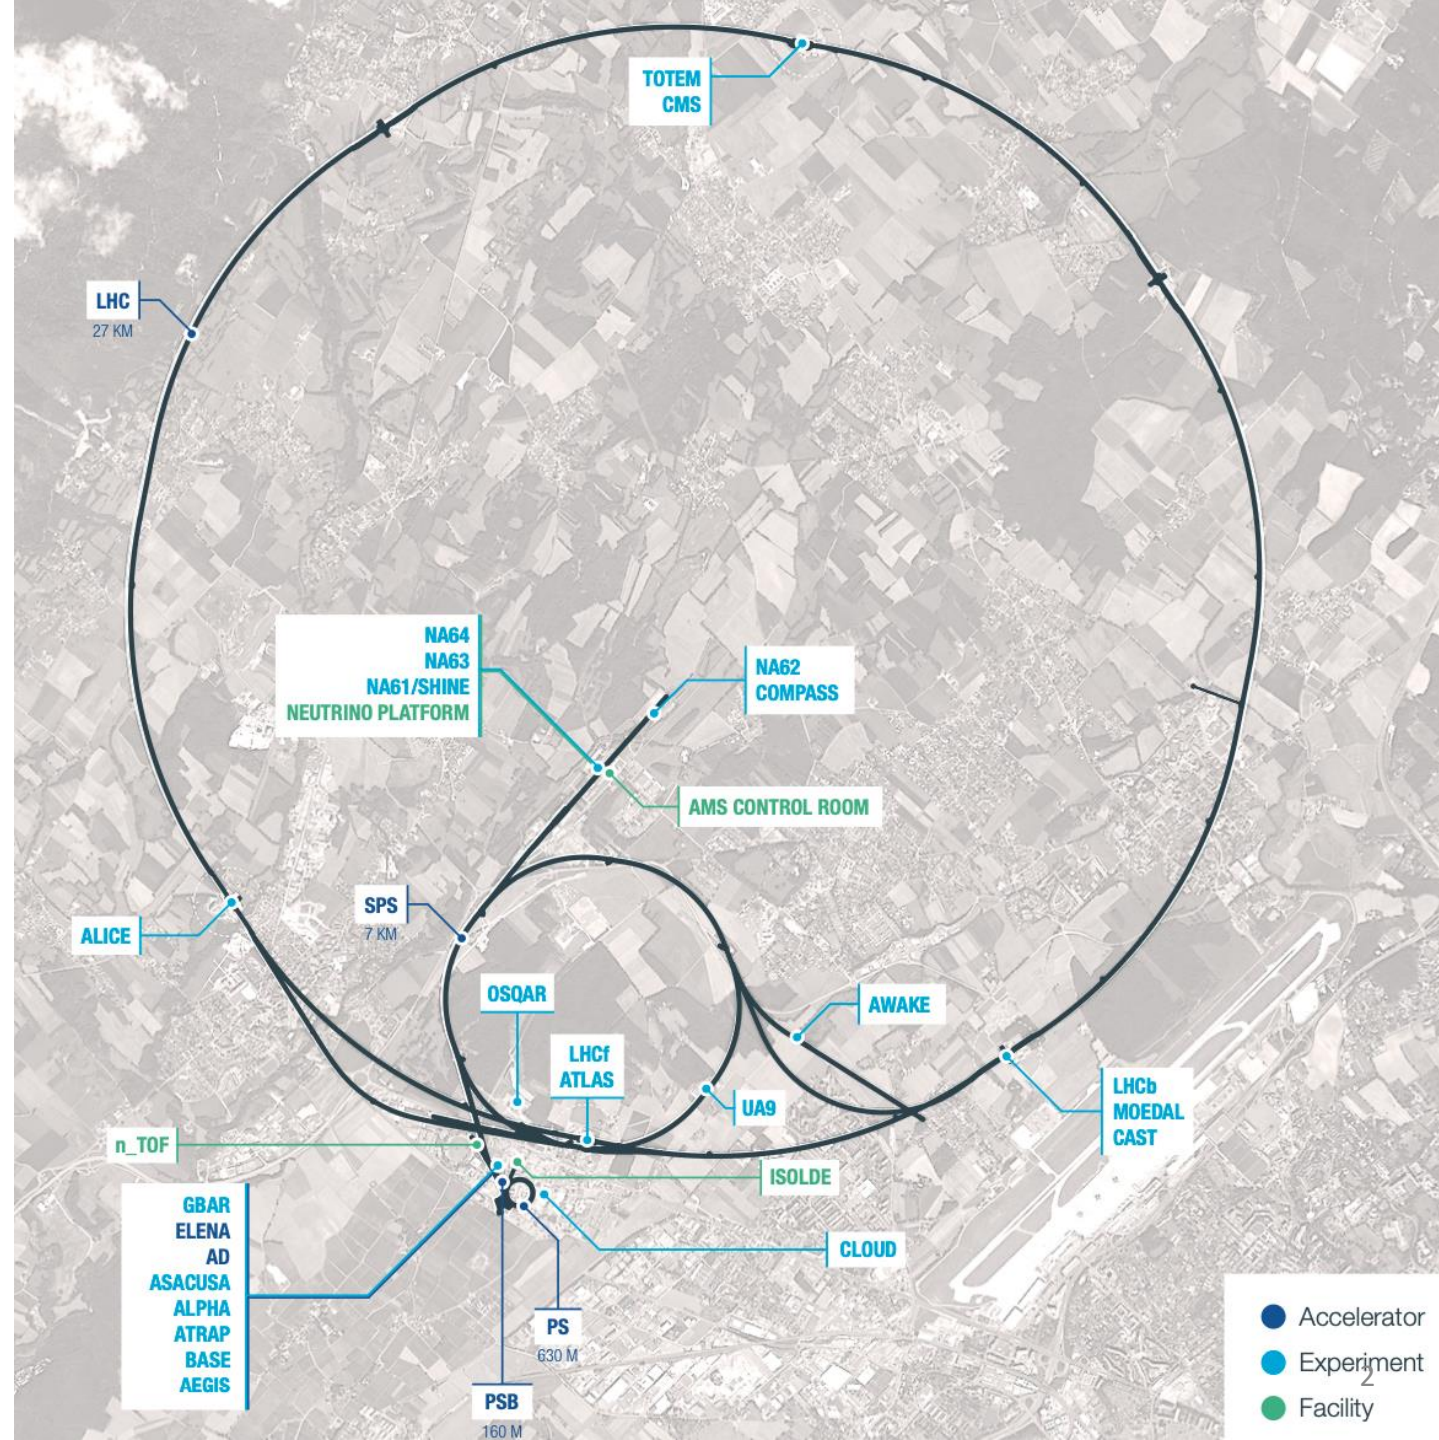

Faezeh Abbasi

SMART CITY CHALLENGES
November 2022

CERN

- 23 Member States
- 3600 employees
- 12'500 scientists (110 nationalities) using the Laboratory's facilities
- 35 Non-Member States with Co-operation agreements with CERN
- 1200 MCHF annual budget

THE INITIATIVE

The Green Village is a visionary initiative linking **CERN's environmental roadmap** with **industrial solutions for sustainability** and the **talent of young innovators**.

ENVIRONMENTAL ROADMAP

TARGETS 2025:

- **GHG Emissions** -> Reduction by 28%
- **Energy Consumption** -> Limit raise by 5%
- Increase the **recycling rate** and reduce waste production.

SUSTAINABLE SOLUTIONS

Examples:

- Smart energy
- Green mobility
- Waste prevention and management

TALENT OF YOUNG INNOVATORS

IdeaSquare:

- +800 students yearly
- +90 projects yearly, driven by young innovators addressing **UN's Sustainable Development Goals**
- Collaboration with key NGOs

GREEN VILLAGE VALUE PROPOSITION

FROM SOCIETY TO CERN TO SOCIETY

- Enabling rapid access to CERN campus as a test site for solutions linked to environment and sustainability
- Accelerating the commercialization of ideas, technologies and prototypes
- Involving Young Innovators to find new ideas for unforeseen applications

CERN CAMPUS: THE PERFECT TESTBED

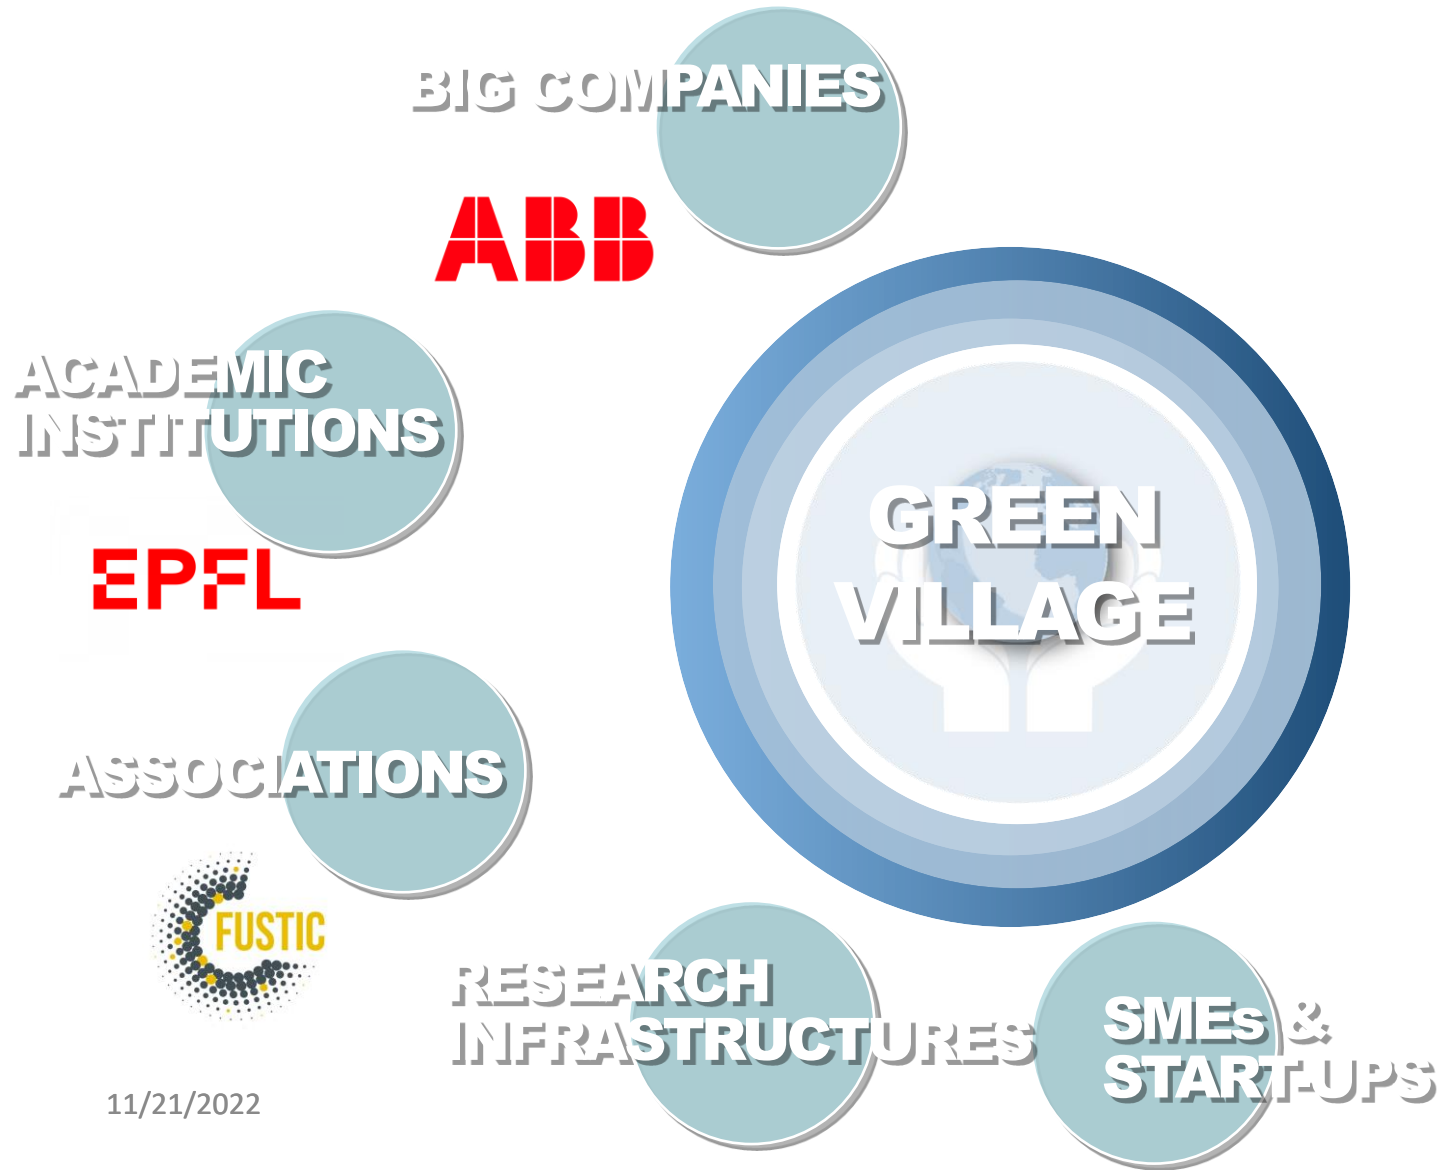

- 590 ha (220 fenced)
- 2 main sites and 15 satellite sites
- 670 buildings from 10 m² to 20.000 m²
- 65% built before the 70's
- 70 km tunnels and 80 caverns
- 30 km roads
- 1000 km technical galleries and trenches
- 9000 persons/daily
- 490 hostel rooms
- 8500 working places
- 4300 parking places in Meyrin, 1400 in Prévessin
- 25000 daily movements to- and inter-sites
- Public transport links in CH, not in FR
- 150000 visitors /yearly

WHAT WE ARE LOOKING FOR

WHO CAN APPLY

As a **FORWARD LOOKING INITIATIVE** GREEN VILLAGE is welcoming:

- Solutions in Development
- BUT NOT commercialized products

GREEN VILLAGE is open to everyone and appreciates the diversity of partners and their solutions!

WHAT CERN GREEN VILLAGE OFFERS

1. Access to CERN's campus as a testbed for developing and testing sustainable solutions
2. Agility in implementation in a self-governed entity
3. Access to CERN's vast technology knowledgebase and receive rapid and tangible feedback
4. Scientific and technical collaboration with CERN's expert personnel
5. Students, researchers, and innovators with the capacity to apply your ideas in different contexts, in turn helping you to increase their scope and scalability
6. Partnerships for collaborative programs and projects proposals
7. Allows the solution providers a sort of sand box to test their solutions, without CERN necessarily being involved in their projects
8. Solution providers are allowed to operate on CERN campus in a free way

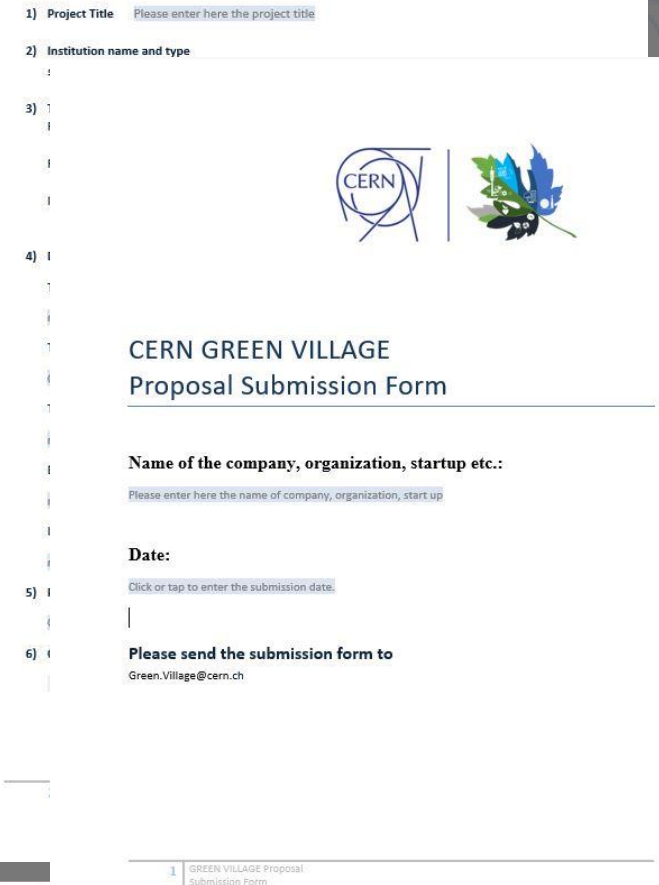

PARTICIPATION PROCESS

Proposal Submission Form

Conditions

1. The project must be a **pilot project** in test phase.
2. The project **addresses** a clearly identified sustainability **challenge(s)**
3. The project is **feasible** in a reasonable time scale/with reasonable amount of **resources**.
4. The project shall **accelerate** a sustainable solution if tested in a realistic city-like environment.

CERN GREEN VILLAGE

Looking for a testbed for your early-stage sustainable solution or technology?

Discover how you can turn CERN's campus into your test area for your own sustainability solutions

**WELCOME
TO**

**CITY
LAB**

WELCOME TO CITY LAB

WHAT IS TORINO CITY LAB

18 OTTOBRE 2018

GRATTACIELO INTESA SANPAOLO INNOVATION CENTER

What is Torino City Lab

An "open laboratory"

Torino offers itself and its assets to test breakthrough solutions in any domain of public interest to shape the City of the future. Frontier technologies at the service of quality of life and environmental and social sustainability on the city scale.

AUTONOMOUSLY
DRIVEN VEHICLES

DRONES

IOT
AND 5G

A.I
AND ROBOTICS

WELCOME TO CITY LAB

WHO CAN PARTECIPATE

18 OTTOBRE 2018

GRATTACIELO INTESA SANPAOLO INNOVATION CENTER

Who can participate

Open to any Company based in Italy or abroad

Other public or private organizations can join the efforts in testing, but only if in partnership with companies.

All subjects have to show requirements for contracting with the Public Administration.

WHAT TO TEST

18 OTTOBRE 2018

GRATTACIELO INTESA SANPAOLO INNOVATION CENTER

What to test

Innovative solutions of public interest

18 OTTOBRE 2018

Solutions not available (or not fully respondent) on the market, at the pre-commercial stage.

Product / technology
organizational process / service or mix

A focus on urban living and a general aim to create positive "social & environmental impact" in the medium term.

What to test

In any domain of the Smart City

ICT

Energy & Environment

Welfare and quality of life

Economy

Safety & Security

WELCOME TO CITY LAB

WHAT TCL OFFERS

18 OTTOBRE 2018

GRATTACIELO INTESA SANPAOLO INNOVATION CENTER

What TCL offers

The City

18 OTTOBRE 2018

1

The whole city area and its assets for testing

2

Municipal intangibles (people, processes, services and data).

3

A single internal contact point

4

Facilitated relationships within the local innovation ecosystem

What TCL offers

Tool and Utilities

18 OTTOBRE 2018

1

International networks to show and "scale the solutions"

2

Channels to involve interested communities of citizens/final users

3

Monitoring tools to evaluate the societal acceptability and the expected impact

WELCOME TO CITY LAB

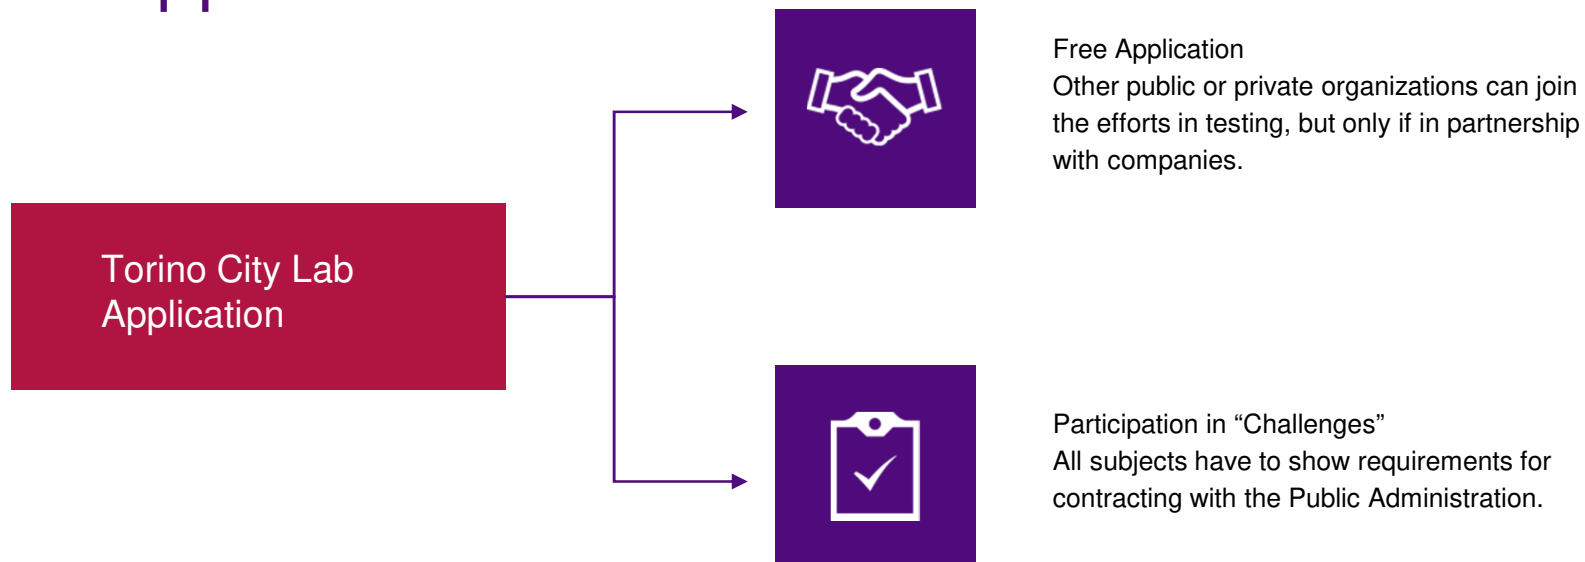

PARTECIPATION AND EVALUATION PROCESS

18 OTTOBRE 2018

GRATTACIELO INTESA SANPAOLO INNOVATION CENTER

Partecipation and evalutation process

2 different channels for application

Partecipation and evalutation process

How the proposal will be evalutated

Innovativeness

Technical feasibility

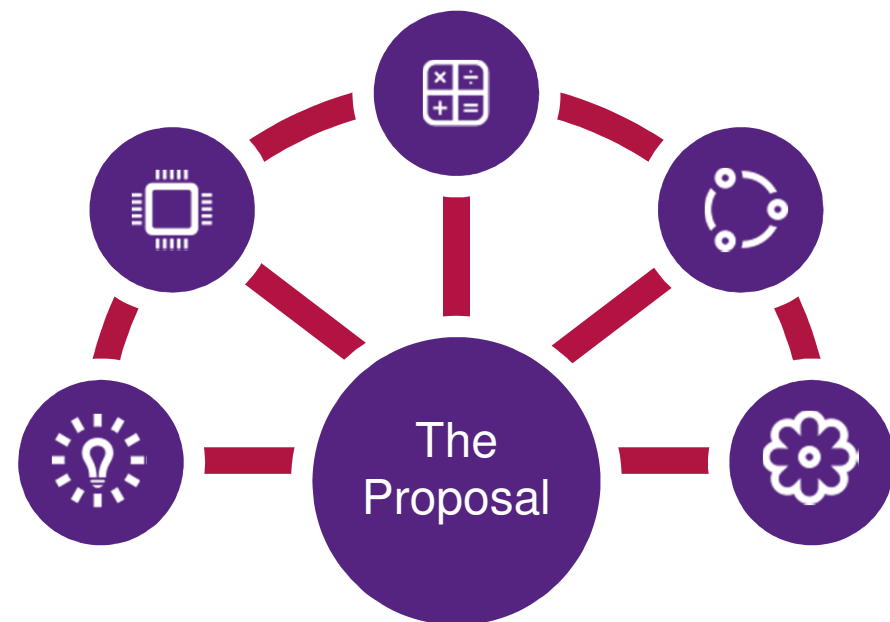

Economic and financial sustainability

Involvement and social impact

Environmental Sustainability

CTE »»»NEXT

Casa delle Tecnologie
Emergenti di TORINO

Technology lives here!

The Project

CTE NEXT is an acceleration and technology transfer hub started in 2021, funded by the Italian Ministry of Economic Development and co-funded by main actors of the local ecosystem.

Goals

CTE Next is aimed to support Startups, SMEs and aspiring entrepreneurs in developing, adopting, testing and/or going to market solutions based on emerging technologies.

Emerging Technologies

Internet of
Things

Artificial
Intelligence

Blockchain

enabled by

Application Fields

Smart Road

connected vehicles,
V2X infrastructure,
autonomous
guidance

**Urban Air
Mobility**

monitoring and
surveillance, city
logistics,
transportation

**Industry
4.0**

connected machines,
extended supply chain,
customer relationship and
experience

Smart City Services

digital services, asset
management, use of
public spaces, cultural
heritage and tourism

The «Service Catalogue» and available Skills
