WHY PARTICIPATE AS INTERNATIONAL RAIL OPERATOR, OEM, ETC.?

- Find new suppliers and product developers
- Austrian companies are number 7 in global export of rail-bound transport technology and equipment
- The Austrian Rail Industry is one of the most innovative in the world
- Products made in Austria stand for high quality and sustainability

WHY PARTICIPATE AS AUSTRIAN COMPANY?

- Exclusive meetings with rail operators, OEMs, etc. from 15 countries in only 3 hours
- Showcase your product or service
- 20 minutes run fast but it is enough to build first connections

BENEFIT FROM OUR MATCHMAKING TOOL

- Pre-visibility of participant profiles, products, services and business interests
- Request, accept or decline conversations
- Pre-arranged meetings guarantee a perfect match with business interest of the dialogue partners

WHY COOPERATE WITH AUSTRIAN RAIL SUPPLIERS?

MEET THE AUSTRIAN RAIL INDUSTRY

The Austrian Rail Industry is an export champion! It has an export rate of 64% and is number 7 in global export of rail-bound transport technology and equipment.

The Austrian Rail Industry is disproportionately strong and innovative when compared internationally. It is a market and technology leader in many areas:

- High-speed trains connect urban areas
- Regional and commuter trains connect cities with their surrounding areas
- Trams and metros provide mobility in the city
- Freight trains provide environmentally friendly, efficient transport

The Austrian Rail Industry supplies its products worldwide and is the number one choice in rail-bound transport areas.
