General information

Title

Software as a Service about Threat Intelligence

Short summary

A Spanish company dedicated to cybersecurity has developed an application that allows the detection of information leaks with a high reputational or economic impact, providing the ability to measure a company's risk from threat exposure, as well as having visibility into all available searches as commercial agreements with technical assistance.

Full description

A Spanish company dedicated to Cybersecurity performs both consultancy and development of their own solutions within their R+D+I department. The company has developed an application that allows the detection of information leaks with a high reputational or economic impact, providing the having visibility into all available searches and findings. The application offers constant surveillance over many types of data, such as: personal identification numbers, tax identification numbers, telephone or mobile numbers, usernames, nicknames, names, family names, user/application passw bank accounts and cards, cryptocurrency accounts, confidential documents, serial keys and gift card codes.

Advantages and innovations

The software incorporates connections against external data sources, its own constantly updated database and a human team for early detection of Data Leak in Deep Web, Surface Web and other distribution channels (WhatsApp, Telegram...).

17 November 2022 - 25 November 2022
Málaga, Spain

ENDR Conference on Dual-Use Technologies 2022

[Home](#) [Tech challenges](#) [B2B Meetings](#) [Programme](#) [Speakers](#) [Pitching sessions](#) [Venue](#) [Contact](#)

Welcome to the European Conference

Dual Use Technologies 2022: Cybersecurity and Digital Applications in Defence

The **European Commission** and **IDEA** (the Agency of Innovation and Development of Andalusia) bring together, in a joint ENDR event, a wide range of participants from defence/security-related businesses, national and European authorities, knowledge institutions and cluster organisations.

This **fully on-site** international event is focused on **cybersecurity** and **cyber defence** as well as other **digital technologies** (robotics, big data, artificial intelligence, autonomous systems, and sensors) of key importance for defence.

What is offered to participants?

- Be part of the debate on cyber security and cyber defence developments;
- B2B meetings. Technology challenges on cybersecurity shared by corporations;
- Up-to-date information on relevant EU policies and funding opportunities (European Defence Fund, Digital Europe and Horizon Europe);
- Visit local actors who play a leading role in the Málaga ecosystem.

Success Stories

Asesoramiento en protección de la propiedad industrial para DISEÑOS NT

"En una economía global como en la que estamos inmersos, en la que competimos con productores de cualquier parte del mundo, contar con los servicios especializados y altamente cualificados de CESEAND es de gran utilidad para Diseños NT. Nuestra experiencia es muy positiva ya que nos ha permitido incrementar nuestras oportunidades de negocio y reconocemos el gran valor del apoyo que recibimos"

Pedro Antonio Montañés Gutiérrez, Consejero Delegado de Diseño y Aplicaciones del Notejido, S.L. (Noviembre de 2017)

Búsqueda de socios en Europa para GLOBALOLIVE

"CESEAND ha supuesto para nuestra empresa una importante posibilidad de ampliar mercado en Europa gracias a la ayuda de un equipo de profesionales que se ha implicado al máximo en nuestro proyecto, guiándonos en las distintas acciones que hemos realizado y facilitándonos el camino hacia el éxito."

Rafael Pleite Gutiérrez, Gerente de Global Olive Consulting (Abril de 2018)

Empresa de base tecnológica dedicada al asesoramiento integral al sector de la aceituna de mesa consigue ampliar mercado en Europa gracias al asesoramiento de CESEAND. [Más información...](#)

"La innovación y el desarrollo tecnológico es clave para el crecimiento y la consolidación de Aganova en el mercado, por lo que un buen plan estratégico y un enfoque constante de las actividades clave en el departamento I+D es crucial, CESEAND ha sido nuestro apoyo durante el proceso de implantación de la estrategia de I+D tanto interna como externa."

Antonio Agustín Ramírez García, Fundador y Director Ejecutivo de AGANOVA (Noviembre de 2017)

Empresa innovadora de base tecnológica recurre a los servicios de CESEAND para mejorar la gestión de su innovación. [Más información...](#)

Servicio de asesoramiento en financiación europea para MLabs Optronics

"La colaboración prestada por CESEAND ha sido de gran ayuda de cara a afrontar la estrategia de apostar por la innovación mediante el desarrollo de proyectos dentro del marco de la Unión Europea"

Antonio D. Soler, Director - Gerente de Mesurex (Abril de 2018)

MLabs Optronics, división de Mesurex especializada en visión artificial y procesamiento de imagen, lidera el proyecto europeo de I+D+i SENSORANCE para la detección de obstáculos en aviación. [Más información...](#)

Búsqueda de financiación europea para BETTERGY

"Para nosotros es un absoluto lujo el poder colaborar con CESEAND. Su labor nos permite tener un asesoramiento continuo en materia de I+D+i, búsqueda de socios europeos para proyectos y prospectiva que nos ha permitido alcanzar metas mucho más altas de las esperadas. Tanto a nivel personal como a nivel profesional desarrollan su labor de forma excelente y para nosotros son un socio indispensable."

Antonio J. Ruiz López, Director de Bettergy (Noviembre 2017)

Los edificios representan el 40% del consumo energético y casi el 36% de las emisiones de CO2. Con la ayuda de CESEAND, una empresa andaluza está perfeccionando una tecnología que permitirá reducir en un 80% el coste y tiempo de los procesos de análisis energéticos detallados en edificios.
