EU Brokerage Event
on Industrial KET* in Horizon Europe

*Key Enabling Technologies

10th November 2022 • Strasbourg

Conference & Bilateral/B2B Meetings | Calls 2023- 2024

Project idea/ Field of expertise:	Web of Things / Digital Twins
Organisation Name:	Orisun
Addressed topic(s):	Taking into account the evolutive nature of organizations in their digital twin's description

Orisun

- Private company based in Strasbourg

- Software and services Startup specialised in Internet of Things, Digital Twins, Big Data, DSS

Orisun IoT 3.0

Our timed graph makes the platform more generic and flexible

The digital time twin simplifies :

✓ the management of machines, measurement systems & sensors

✓ the multiplication of applications

## Orisun provides a powerful answer to these questions

Maintaining a fleet of connected objects in operational condition is complicated and costly.

Ensuring scalability by eliminating strong coupling between machines, IoT, legacy apps, dashboards & alerts

Increase productivity by preserving the usability of historical data and minimizing transformation costs

Today these problems are not solved or the solutions to circumvent them are very expensive
