

CoreMine™
VITAE

Trustworthy AI and Data Systems for Real-World Decision Support

Maria Mastrangelopoulou, MSc, PhD, CSO
Coremine Vitae AS, SME, private organization
Norway

maria@coreminevitae.com
www.coreminevitae.com

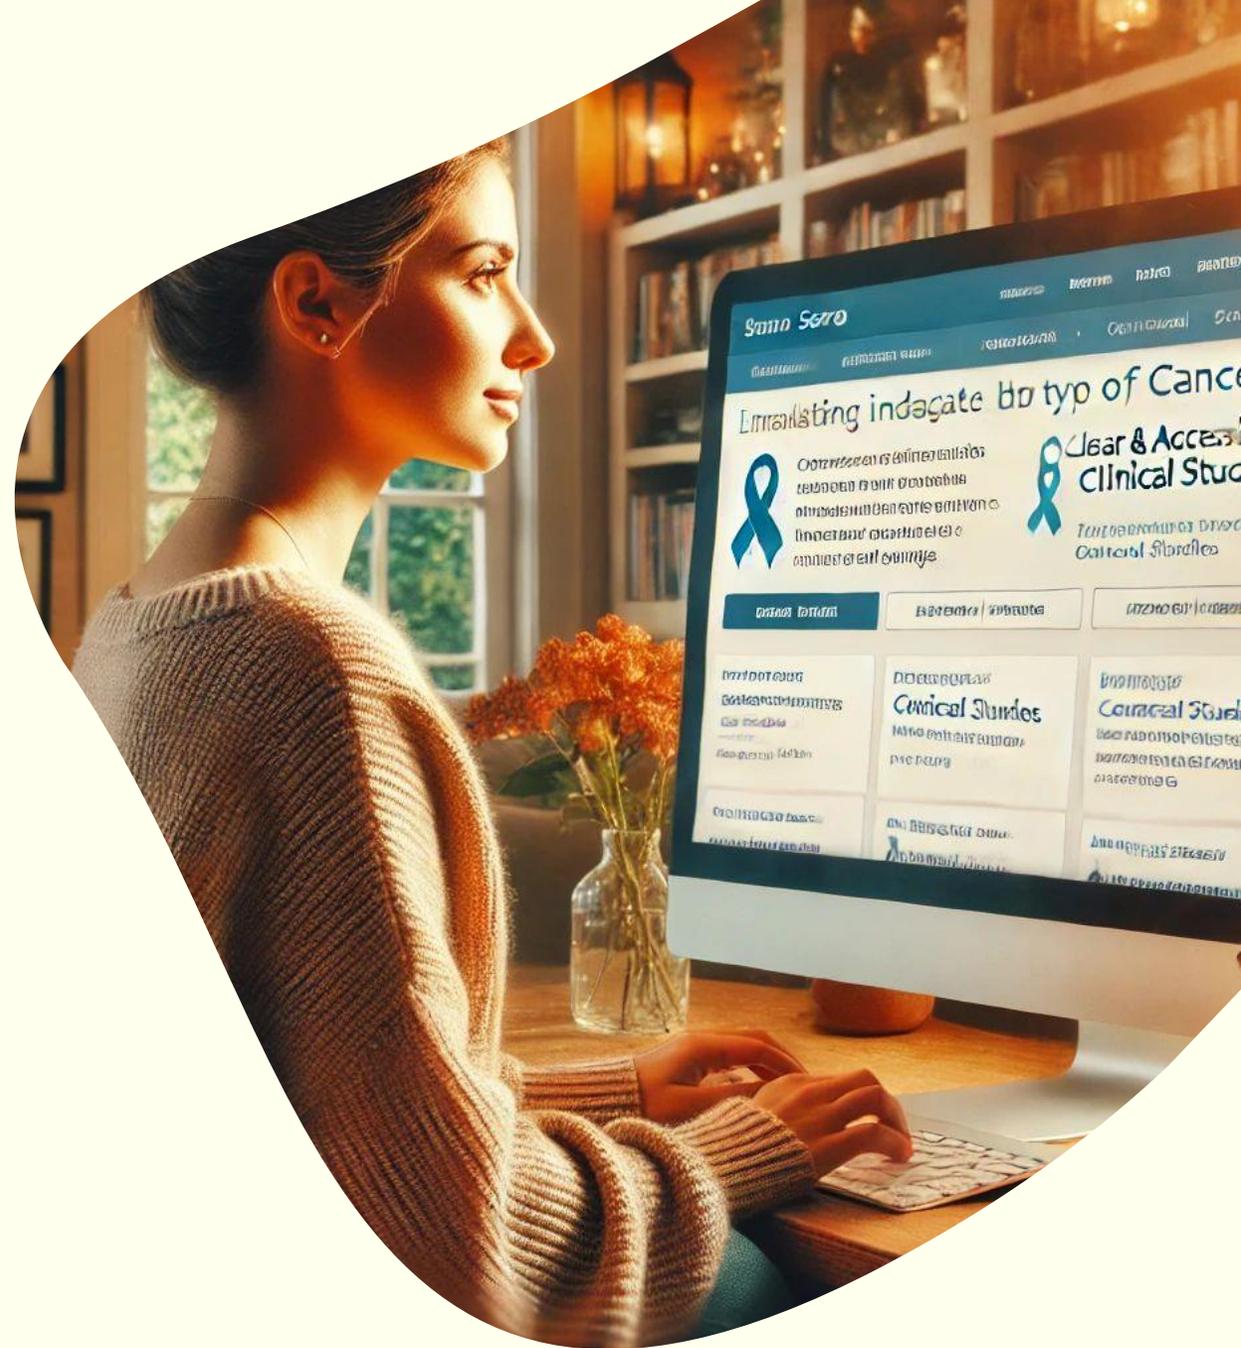

Norwegian SME developing trustworthy AI and data systems for real-world decision support

Our mission is to bridge research and data into usable, transparent outputs for stakeholders and end-users

Core Expertise:

AI/ML pipelines, RAG systems, FAIR data structuring, and digital dashboards

✓ Research knowledge structuring & **evidence synthesis**

✓ **Interpretable analytics** & AI-supported insights

✓ Digital platforms & knowledge hubs

✓ Decision-support & evidence-to-action tools

✓ **Communication, health literacy** & stakeholder engagement

Key collaborations & proven delivery

- ✓ **Spin-out from PubGene (2022)** – roots in biomedical text mining and knowledge extraction
- ✓ **200+ personalised medicine reports delivered** – combining evidence synthesis, and clinical input
- ✓ **Brain Cancer Portal (Hjernesvulstportalen)** launched with the Norwegian Brain Cancer Association (2025) – supporting health literacy and shared decision-making
- ✓ **EU Horizon & Eurostars collaboration experience** – working with academic, clinical, SME, and patient-organisation partners
- ✓ **Proven ability to translate complex research into usable tools and insights** (dashboards, portals)

Prioritised EU Calls:

1. Behavioural interventions as primary prevention for Non-Communicable Diseases (NCDs) among young people

HORIZON-HLTH-2026-01-STAYHLTH-02

2. Innovative interventions to prevent the harmful effects of using digital technologies on mental health

HORIZON-HLTH-2026-01-DISEASE-02

3. Multisectoral approach to tackle chronic non-communicable diseases

HORIZON-HLTH-2026-01-DISEASE-09

4. Scaling up innovation in cardiovascular health

HORIZON-HLTH-2026-01-DISEASE-15

Prioritised EU Calls:

5. Clinical trials for advancing innovative interventions for neurodegenerative diseases

HORIZON-HLTH-2027-02-DISEASE-14

6. Virtual Human Twins (VHTs)

HORIZON-HLTH-2027-03-TOOL-04

7. Core Technologies for Virtual Worlds/Web4.0

HORIZON-CL4-2026-04-HUMAN-01

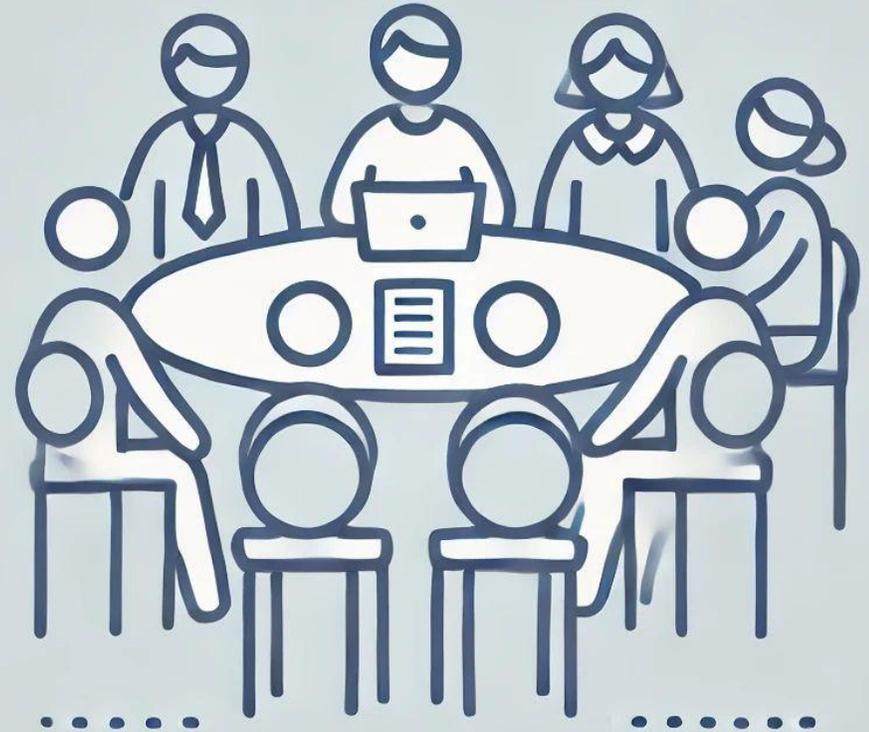

8. AI Forecasting for Energy Sharing (Societal Readiness Pilot)

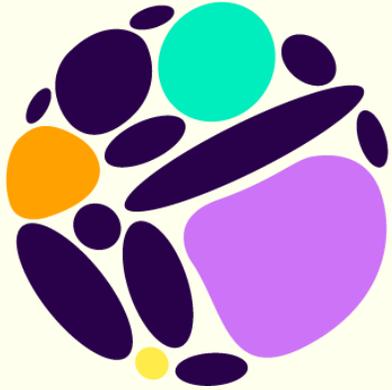

HORIZON-CL5-2026-03-D3-23

Our role in consortia

- ✓ Partner (seeking Consortium / Coordinator)
- ✓ Experience collaborating with academic, clinical, SME & patient-organisation partners
- ✓ Typical fit: AI/data/analytics + digital platforms + communication/engagement work packages (WP lead or contributor)
