Collaborative online Brokerage event:

**“Artificial intelligence in Horizon Europe calls:
an interdisciplinary challenge”**

Flash Presentation

Our expertise

- ▶ **Ethical, Legal, Societal Impact (ELSI) Assessment** for new and emerging technologies (from AI to apps for medical purposes)
- ▶ **Safety & Risk Analysis** (according to EU AI Act requirements) for commercial and non-commercial technologies
- ▶ **Independent Ethics Expertise** for projects funded by the European Union and/or international organizations
- ▶ **Dual-use Analysis and Compliance Mitigation Assessments**

Some of the projects we worked with:

ALIGNER

Topics of interest

Possible topic/topics you wish to participate in:

Addressing the impact of artificial intelligence, cyberviolence, and deepfakes on equality, democracy and inclusive societies

Your potential contribution to the projects applying to the topics you are interested in:

- 1) Ethical expertise on dual use of AI and AI compliance, beyond AI ethics-washing.
- 2) An ELSI framework to assess (societal) risks from AI and guide safeguards.

Role in the STEM-SSH collaboration

Which SSH expertise can you provide in the projects?

We provide **ethical expertise**.

We are a multi-disciplinary research group (NEC-Tech <https://nec.ro/programs/nec-tech/>). In our group ethical expertise is developed and provided in a context informed by anthropology, social science, philosophy and computer science.

Our expertise strengthens Horizon projects by integrating **ethics-by-design** into technical work packages.
