Redefining Medical Imaging with AI-Powered Innovation

Our expertise

- Experience in AI based medical decision Support systems

- Professional network in healthcare institutions and academia

- Adoption of new technologies in available solutions: LLM, Digital Twin

Topics of interest

HORIZON-**HLTH**-2026-01-STAYHLTH-02: Behavioural interventions as primary prevention for Non-Communicable Diseases (NCDs) among young people

HORIZON-**HLTH**-2026-01-DISEASE-02: Innovative interventions to prevent the harmful effects of using digital technologies on the mental health of children and young adults

HORIZON-**HLTH**-2026-01-DISEASE-09: Multisectoral approach to tackle chronic non-communicable diseases: implementation research maximising collaboration and coordination with sectors and in settings beyond the healthcare system

HORIZON-**HLTH**-2026-01-DISEASE-15: Scaling up innovation in cardiovascular health

HORIZON-**HLTH**-2027-02-DISEASE-14-two-stage: Clinical trials for advancing innovative interventions for neurodegenerative diseases

HORIZON-**HLTH**-2027-03-TOOL-04: Virtual Human Twins (VHTs) for integrated clinical decision support in prevention and diagnosis

HORIZON-**CL5**-2026-03-D3-22: AI-driven forecasting algorithms for Grid and Consumer friendly Energy Sharing – Societal Readiness pilot

DATASURGERY

Role in the STEM-SSH collaboration

We can provide

- Professional and Academic know-how on Data Science, Image Processing and Deep Learning.
- Strong network consists of Turkish hospitals for medical data gathering, labelling and digital Health solutions pivotting.
- Engineering, AI and software development with Ethical principles for tailored projects.

We are looking for partners

- Experienced in HIS, RIS, PACS Integration partners
- International Hospitals/Research Centers for medical data gathering, labelling and digital Health solutions pivoting.
