

Horizon Europe Cluster 2

HORIZON-CL2-2027-01-DEMOCRACY-04

Addressing the impact of artificial intelligence, cyberviolence, and deepfakes on equality, democracy and inclusive societies.

Objectives:

How AI-generated content, deepfakes and cyberviolence affect

- Democratic participation,
- Trust,
- Equality.

In practice for different groups of people.

Challenge:

- **not** to add a general “societal dimension”
- but to show **clearly**
 - **who** is affected,
 - **how** behaviours change,
 - **why** this matters for democracy and inclusion.
