Horizon Europe Cluster 1: Health Brokerage Event

Project Idea / Field of Expertise :

EVIDENZ.AI: blockchain-based platform for health data management. Use case proposal: clinical trials

Organisation Name:

Evidenze (www.evidenze.com)

Addressed Topic(s) & Call(s):

Various

Evidenze

- Evidenze is an International Company of services and solutions in the management of knowledge in health. Specialized in **clinical research (CRO)**, Medical Education, Patient Support Programs, **Digital Health** and Communication agency
- We are based in Spain, Italy and Portugal with +17 years of experience on EU projects: FP7, Eurostars, Eureka, PCP, PPI, RIA among others as Coordinators and/or members.

Evidenze Group

Our project idea / expertise

- **Objectives:**

- **Designing and implementing** a viable and effective **data space for clinical research**. The solution incorporates novel data management frameworks that include data ownership, data traceability, and data governance components, data integrity and data quality verification mechanisms, as well as monitoring and decision support systems.
- **Establish collaborations and data sharing among several leading European healthcare institutions, administrations, and companies concerned with conducting research**, in order to build a common and federated data space.
- Exploit the data made available through the data space in order to leverage **Artificial Intelligence and Machine Learning technologies in clinical research**. This requires a strong control of the data, its origins, its quality and the guarantee of its immutability in all its processing phases.

- **Impact:**

- Creation of a scalable **pan-European data space** for clinical research.
- Onboarding of health institutions to share data and use **federated data services**.
- **Novel data traceability and verification mechanisms** to improve trustworthiness of data sharing through common spaces.
