Horizon Europe Cluster 6: Food, Bioeconomy, Natural Resources, Agriculture and Environment Brokerage Event

Project Idea / Field of Expertise :

The purpose of our activity is implementation of artemisinin BIOCEUM_Artemi into medical practice.

Organisation Name:

Foundation Alternative Natural Technologies

Addressed Topic(s) & Call(s):

**Maintaining an innovative, sustainable and globally competitive health industry -
HORIZON-CL1-2024-D6-01**

Foundation Alternative Natural Technologies

private & confidential

Development platform

- Adaptation of the cultivation of *Artemisia annua* to the climatic and soil conditions in Europe.
- Obtaining plant extract technology from local cultivation at a local plant adapted to the needs in accordance with the certification.
- Development of simple methods of standardization and verification of the level of active substance in a plant extract.
- Conducting clinical trials to confirm the effectiveness of the plant extract. Both in agricultural, veterinary and human applications.
- Implementation of the common use of herbal extracts on the example of *Artemisia annua*.
- Development and implementation into production practice of a biotechnological method of treating beans of legumes in order to obtain a wholesome source of protein with pro-health functions.
