HORIZON-CL1-2023-D5-01

Organisation name

- Institutional information on your organization:
Help Doctor (DE) GbR

Your skills and expertise:

Help-Doctor is a IT developer & AI software engineering shop with excellent expertise in enterprise software development and solid background in AI research, as mainly in e-health. We are long-term technology partner for startups and innovative enterprises in the US and across the EU.

The main areas of our expertise are:

- Digital healthcare + pharma, esp. interoperability standards (IHE), clinical data formats (CDA, HL7, FHIR, DICOM, Snomed CT), MDR regulations, telemedicine, precise medicine, patient empowerment, ...
 - mobility, railways, space & defence, energy (PV, prediction maintenance, logistics, construction ...)
 - Applied Artificial Intelligence (AR/VR, avatars and new interactive media, NLP, Machine, and Deep Learning, ...)
 - Applied Computer Science (hi-availability, hi-performance distributed systems, sw architecture and engineering, scalability, refactoring, mobile apps, ...)
 - Start-up expertise (from technical feasibility and advisory, through sw development, delivery, and operation, up to equity partnerships)
- Past experience in EU-funded projects:
sponsorship by eit health to our app against depression

Our project idea / expertise

- Description of your project idea:

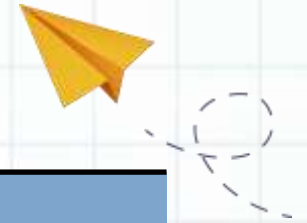

*Help-Doctor – telemedicine for clinics and medical offices, an app as first touch-point
Help-Doctor is offering 24-hour access to specialists - doctors and nurses - as 24-hour access to healthcare & patient and waiting room management of doctors' practices for clinics & doctors' offices, also Smartphone-App or PC, incl. e.g. for elderly people in AAL or people living on rural counties.*

- Description of what you can offer to other proposals or request from partners:

access or coop with clinics for pilot
