# Our project idea / expertise

## SPINOFF EUROPA INITIATIVE

The Spinoff Europa Initiative has been initiated by © Venrize. The long-term goal of the initiative is to raise the awareness that entrepreneurship must be a third mission of European universities, universities of applied sciences and research institutions next to research and teaching. The direction of the Spin-off Europa Initiative is set by its committee which is composed of internationally successful entrepreneurs as well as university leaders and experts.

## VISION

The Spinoff Europa Initiative wants to create a flourishing spin-off ecosystem with a significant number of additional university spin-offs and academic start-ups – at least 10 000 newly founded companies – by 2030. The Spinoff Europa Initiative and its supporters will facilitate the establishment of the third mission as a sparring partner with role models, know-how and international benchmarking.
