Kadifeteks Mensucat San. Tic. A.Ş.

Kadifeteks produce upholstery fabrics, curtains, rugs, outdoor fabrics and transport fabrics in İSTANBUL. It has an annual production capacity of 30.000.000mt. We have about 1300 employees and we have got extensive 2 R&D Center and 1 Design Center where we carry out applied R&D and innovation projects with 74 staff.

We had completed 8 TUBITAK projects funded. But we have no experience in EU projects.

We use raw materials of Polypropylene (PP), Polyester (PET), Acrylic (PAN) and Wool. There is a melt spinning plant of polypropylene yarn production with masterbatch additives. It is a fully integrated textile manufacturing plant including yarn spinning, air-jet texturizing, fantasy yarn, warp preparation, weaving, warp knitting and circular knitting, dyeing and finishing, coating and laminating facilities.

There are fully established laboratories which are capable of yarn and fabric physical testing and flame retardancy tests.

Upholstery Fabric Producer and Developer

We are currently working on the subjects of recycling of yarn and fabrics, use of recycled materials, use of bio-based materials, flame retardant, environmentally friendly flame retardant, life cycle assessment, traceability, energy efficiency, searching and developing of sustainable raw materials and chemicals and sustainable processes for water and energy-saving, reducing the carbon footprint during production, wastewater reuse and waterless production.

We can also work on the application of raw materials, chemicals, etc. solutions from other sectors to the upholstery textile sector.

We can participate in all of our areas of expertise for calls and projects as an implementer partner.
